## WHAT IS THIS PRODUCT?

### TYPE

ODDO BHF US Large Cap is a UCITS under Directive 2009/65/EC, taking the form of a Fonds Commun de Placement.

### TERM

ODDO BHF US Large Cap was created on 11 October 2002 for a term of 99 years.

The management company may liquidate the product if the assets fall below the regulatory minimum, or at its discretion in accordance with the legal requirements.

### OBJECTIVES

The Fund’s investment objective is to outperform the benchmark index, the S&P 500 (converted into euro), over the recommended investment period of five years or more (performance net of fees).

The Fund’s stock selection method relies upon a trend-tracking model based on the benchmark index. This model calculates trends and buy/sell signals with reference to a wide array of historical data.

The Fund aims to outperform its benchmark rather than replicate it precisely. The Fund’s performance may therefore deviate from it considerably in both positive and negative terms. The Fund invests at least 70% of its assets in equities in the S&P 500 Total Return (TR) index.

The Fund may invest up to 30% of its assets in equities of issuers headquartered outside of the United States. The Fund may invest up to 10% of its assets in equities headquartered outside the OECD (emerging country).

The Fund may invest up to 30% of assets in fixed, variable or revisable rate securities (linked to bond market or money market rates) in order to optimise cash management.

The Fund may invest up to 10% of its net assets (i) in units or shares of UCITS under European Directive 2009/65/EC, (ii) in EU AIFs and/or in foreign investment funds mentioned in R.214-25 that meet the criteria of article R.214-13 of the French Monetary and Financial Code. These funds may be managed by ODDO BHF group entities and will be compatible with the Fund’s investment strategy.

The Fund may invest in all financial futures or options traded on regulated or organised markets or over the counter in France and other countries (hedging of equity and currency risks or generating exposure to equity markets with a view to achieving the investment objective).

The Fund will not use total return swaps.

The Fund’s maximum exposure to the instruments (equities, debt securities, funds and derivatives) is limited to 100% of net assets, it being understood that the maximum exposure is the sum of the net exposures to each of the markets (equity, fixed income, money) to which the Fund is exposed (the sum of long and hedging positions).

Subscription and redemption requests are centralised by the custodian every Paris stock exchange trading day until 11:15 (Paris time, CET/CEST) and executed on the basis of the net asset value of the same day.

The management team takes into account environmental, social and governance (ESG) criteria in its investment decisions but they are not the dominant factor. The investment decisions taken may therefore not be consistent with ESG criteria.

CN-USD units accumulate their income, as decided by the management company on a yearly basis.

### INTENDED RETAIL INVESTOR

This Fund is intended for investors seeking to increase the value of their capital through a vehicle investing in North American equities, aiming to outperform the benchmark index over a period greater than five years, and who are able to bear the risks associated with this exposure. US Persons may not invest in this product.

More detailed information on the Fund, such as the prospectus (French, English) and the annual and semi-annual reports (in the language of the distribution country) is available at am.oddo-bhf.com or may be obtained free of charge at any time from ODDO BHF Asset Management SAS, 12 boulevard de la Madeleine, 75009 PARIS or from the centralising agent in the distribution country. The Fund’s NAV is available on the Management Company’s website. Other unit classes are available for this Fund.

The Fund’s custodian is ODDO BHF SCA

## WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

### RISK INDICATOR

The risk indicator assumes you keep the product until the end of the recommended holding period, i.e. five years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you. Currency risk: you will be paid in a different currency; your actual gain will therefore depend on the exchange rate between the two currencies. This risk is not taken into account in the above indicator:

**Other materially relevant risks not taken into account in the indicator:**

Other risks not taken into account in the risk indicator may be materially relevant. They include:

- liquidity risk
- counterparty risk

As this product does not offer protection from market hazards, you could lose some or all of your investment.

**PERFORMANCE SCENARIOS**

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years with a one-year horizon and over the recommended investment period.

Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: 5 years  
Investment: \$10,000

Scenarios		If you exit after 1 year	If you exit after 5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	\$2,820	\$2,820
	Average return each year	-71.8%	-22.3%
Unfavourable	What you might get back after costs	\$8,320	\$10,020
	Average return each year	-16.8%	0.0%
Medium	What you might get back after costs	\$10,750	\$19,230
	Average return each year	7.5%	14.0%
Favourable	What you might get back after costs	\$13,940	\$22,330
	Average return each year	39.4%	17.4%

The unfavourable scenario occurred for an investment between: 11/2024 and 11/2025.

The medium scenario occurred for an investment between: 09/2019 and 09/2024.

The favourable scenario occurred for an investment between: 03/2020 and 03/2025.

**WHAT HAPPENS IF ODDO BHF ASSET MANAGEMENT SAS IS UNABLE TO PAY OUT?**

The product is a co-ownership of financial instruments and deposits separate from the portfolio's Management Company. In the event of the company's insolvency, the product's assets, which are held by the custodian, would be unaffected. In the event of the custodian's insolvency, the risk of financial loss on the product would be mitigated by the legal segregation of the custodian's assets from the product's assets.

**WHAT ARE THE COSTS?**

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

**COSTS OVER TIME**

The tables show the amounts taken from your investment to cover the different types of cost. These amounts depend on how much you invest, how long you hold the product, and the return on the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year, you would get back the amount that you invested (0% annual return). For the other holding periods, we have assumed the product performs as shown in the moderate scenario.
- \$10,000 is invested

Investment: \$10,000

Scenarios	If you exit after 1 year	If you exit after 5 years
Total costs	\$556	\$2,019
Annual cost impact*	5.6%	2.8%

\*This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the end of the recommended holding period your average return per year is projected to be 16.8% before costs and 14.0% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

**COMPOSITION OF COSTS**

The table below indicates the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period, and the meaning of the different cost categories.

One-off costs upon entry or exit		If you exit after: 1 year
Entry costs	Entry costs represent the maximum amount that may be paid at the time of subscription. 4.00% is the most you will pay; it may be that you pay less. The person selling you the product will inform you of the actual costs.	Up to \$400
Exit costs	We do not charge any exit costs for this product. However, the person selling you the product may do so.	Up to \$0
Ongoing costs [taken each year]		
Management fees and other administrative or operating costs	These represent the unavoidable costs of running the product and any payments, including remuneration, to parties connected to the product and providing services. 1.54% of the value of your investment per year. This is an estimate based on actual costs over the last year.	\$148
Transaction costs	0.09% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	\$9
Incidental costs taken under specific conditions		
Performance-related fees	Impact of performance-related fees. There is no performance-related fee for this product.	\$0

## HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

### Minimum recommended holding period: over 5 years

This recommended holding period is a minimum that takes into account the features of the selected product. It may be longer, depending on your financial position and investment choices.

You can redeem some or all of your investment at any time. Exiting before the end of the recommended holding period may affect the performance that can be expected from your investment. You can find details of any charges and penalties applied when divesting under: "What are the costs?"

Subscription and redemption requests are centralised by the custodian every Paris stock exchange trading day until 11:15 (Paris time, CET/CEST) and executed on the basis of the net asset value of the same day.

The Management Company may make use of a gate provision to cap redemptions and it may only be activated in exceptional circumstances. For more details on this provision, please refer to the "Gate provision for capping redemptions" section of the prospectus, available at <http://am.oddo-bhf.com>.

### HOW CAN I COMPLAIN?

If you would like more information or wish to make a complaint, please contact ODDO BHF Asset Management SAS, 12 boulevard de la Madeleine, 75009 Paris, France.
