

PURPOSE

This document provides you with key information about this investment product. It is not marketing material. This information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

PRODUCT

Name: ODDO BHF Leading Global Trends CRW-USD [H]

Manufacturer: ODDO BHF Asset Management Lux

ISIN: LU2345841972

Website: am.oddo-bhf.com

Further information can be obtained by calling: +352 45 76 76 - 01

The fund is a UCITS fund established in the Grand Duchy of Luxembourg. It is managed by ODDO BHF Asset Management Lux (the "Company"). The Company is part of the ODDO BHF Group.

The *Commission de Surveillance du Secteur Financier* ("CSSF") is responsible for the supervision of ODDO BHF Asset Management Lux in relation to the key information document.

Date of preparation of this key information document: 15 April 2025

WHAT IS THIS PRODUCT?

TYPE

The fund is a UCITS fund in contractual form without independent legal status (FCP – *fonds commun de placement*).

The fund currency is the euro. The unit class currency is the US dollar. Currency risks against the euro are hedged for this unit class. The returns obtained by the unit class are reinvested in the fund, not distributed.

TERM

The Fund is established for an indefinite period; However, the fund may be dissolved at any time by resolution of the Company. Please refer to the section, "How long should I hold it and can I take money out early?" for information regarding the terms and frequency of redemptions.

OBJECTIVES

The objective of ODDO BHF Leading Global Trends is to outperform the benchmark index MSCI All Countries World Index** (Net Return, EUR) over a rolling five-year period. The fund is actively managed and invests in a broad range of issuers from across the world. The Fund's investment universe is the companies contained in the benchmark index. It focuses on equities with qualitative growth characteristics, which technological, social or economic trends benefit. The fund equity exposure (direct or indirect via equity investment funds or exposure to equity (index) derivatives) is always in excess of 90%. No regional or sectoral restrictions apply to the investment of fund assets. The fund may invest up to 10% of its assets in equities from outside the investment universe, provided the market capitalisation of the company in question is at least EUR 100 million. In addition, the fund may invest up to 10% of its assets in cash deposits or money market funds, or in units of investment funds other than equity investment funds. A total of 10% of the assets may be invested in units of investment funds. The fund may also be managed using financial futures.

In accordance with Article 8 of the SFDR***, the Fund Manager incorporates sustainability risks into its investment process by taking into account both the ESG (environmental, social and governance) characteristics of investment decisions and any significant negative impacts that investment decisions may have on sustainability factors. The investment process is based

on ESG integration, normative screening (including UN Global Compact, controversial weapons), sector exclusions and a best-in-class approach.

At least 90% of the issuers in which the Fund invests are assessed on the basis of their ESG performance (investments in target funds and money market instruments are excluded from this process). An ESG filter is then applied to the investment universe, which results in the exclusion of at least 20% of the companies. The fund does not acquire the securities of companies generating any turnover with controversial weapons (biological/chemical weapons, cluster munitions, blinding laser weapons, land mines, etc.), or more than a specified level of turnover with other weapons (proportion of total turnover generated from nuclear, conventional and non-military weapons), gambling, pornography, tobacco, coal mining or coal-fired power generation. Issuers that significantly violate the requirements of the UN Global Compact are excluded. There is a risk that the model for ESG scoring does not quite fulfil the purpose for which it was developed.

CACEIS Bank, Luxembourg Branch is the depositary of the fund.

You can find further practical information (in English) on the fund, the prospectus, terms of investment, annual and semi-annual reports and the current issue and redemption prices free of charge on our website am.oddo-bhf.com.

INTENDED RETAIL INVESTOR

The fund is aimed at all investors whose objective is wealth creation and/or optimisation. Investors should be in a position to sustain fluctuations in value and considerable losses and should need no guarantee that the original amount invested will be returned. In some circumstances, the fund may not be suitable for investors who wish to liquidate their investment in the fund within five years. The Company's assessment does not constitute investment advice. Its purpose is to give investors an initial indication of whether the fund is appropriate for them, given their level of experience, risk appetite and investment horizon.

INSURANCE BENEFITS AND COSTS

Insurance costs are not included in the calculations.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

The risk indicator assumes you keep the product for five years. The actual risk can vary significantly if you cash in at an early stage and you may get back less

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified the risk of this product as 4 on a scale of 1 to 7, whereby 4 corresponds to a risk class of medium. The risk of potential losses from future performance is assessed as medium. It is possible that the ability to execute your redemption request will be jeopardised by unfavourable market conditions.

- **Operational risk, including custody risks:** Mistakes and misunderstandings made during management and custody processes could have an adverse effect on the fund's performance.

- **Market risks:** How financial products perform in terms of price or market value depends in particular on the performance of the capital markets, which is influenced in turn both by the general global economic climate and by the overall local economic and political conditions. On a stock exchange in particular, general price performance can also be influenced by irrational factors such as sentiment, opinions and rumours.
- **Currency risks:** The fund also invests outside the eurozone. The value of the currencies in which these investments are made may fall against the euro.
- **Concentration risk:** The fund acquires securities relating to specific regions or themes. Their performance may suffer, e.g. as a result of political or economic events.

A detailed description of all risks can be found in the fund's Prospectus under "Risk Information". This product does not include any protection from future market performance so you could lose some or all of your investment.

PERFORMANCE SCENARIOS

The amount you ultimately receive with this product will depend on future market performance. Future market performance is uncertain and cannot be predicted with any certainty. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: 5 years

Example investment: USD 10,000

| Scenarios | | If you exit after 1 year | If you exit after 5 years |
|---------------------|--|--------------------------|---------------------------|
| Minimum | There is no minimum guaranteed return. You could lose some or all of your investment. | | |
| Stress | What you might get back after costs | USD 3,000 | USD 3,700 |
| | Average return each year | -70.0% | -18.0% |
| Unfavourable | What you might get back after costs | USD 7,970 | USD 9,300 |
| | Average return each year | -20.3% | -1.4% |
| Moderate | What you might get back after costs | USD 10,200 | USD 13,670 |
| | Average return each year | 2.0% | 6.5% |
| Favourable | What you might get back after costs | USD 13,310 | USD 16,310 |
| | Average return each year | 33.1% | 10.3% |

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor, or the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market conditions.

The unfavourable scenario occurred for an investment between March 2015 and March 2020. The moderate scenario occurred for an investment between March 2017 and March 2022. The favourable scenario occurred for an investment between February 2020 and February 2025.

WHAT HAPPENS IF COMPANY IS UNABLE TO PAY OUT?

The default of the Company will have no direct impact on your payment, as in the event of insolvency, legal provisions stipulate that the fund will not form part of the insolvency estate but will remain independent.

WHAT ARE THE COSTS?

The person selling you or advising you on this product may charge you additional costs. If so, this person will inform you of these costs and show you the impact that these costs will have on your investment.

COST OVER TIME

The tables illustrate the amounts that will be deducted from your investment to cover various types of costs. These amounts depend on how much you invest, how long you hold the product for, and how well the product performs. The amounts presented here illustrate the example of a specific investment amount and differing potential investment periods. We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- USD 10,000 is invested.

| Scenarios | | If you exit after 1 year | If you exit after 5 years |
|---------------------|--|--------------------------|---------------------------|
| Total costs | | USD 721 | USD 2,166 |
| Annual cost impact* | | 7.3% | 3.6% |

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the end of the recommended holding period your average return per year is projected to be 10.1% before costs and 6.5% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

COMPOSITION OF COSTS

| One-off costs upon entry or exit | | If you exit after 1 year |
|---|--|--------------------------|
| Entry costs | 5.00% of the amount you pay when you initiate this investment. These costs are already included in the price you pay. This includes distribution costs. This is the maximum amount you will be charged. The person selling you the product will inform you of the actual charge. | USD 500 |
| Exit costs | We do not charge an exit fee for this product. | USD 0 |
| Ongoing costs taken each year | | |
| Management fees and other administrative or operating costs | 2.07% of the value of your investment per year. This is an estimate based on actual costs over the last year. | USD 196 |
| Transaction costs | 0.26% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. | USD 25 |
| Incidental costs taken under specific conditions | | |
| Performance fees | None | USD 0 |

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period: 5 years

This product is suitable for long-term investments. In principle, units in the fund can be redeemed on each valuation day. In principle, there are no costs or fees for such a transaction unless otherwise disclosed in the Prospectus.

HOW CAN I COMPLAIN?

If you have any complaints, please contact ODDO BHF Asset Management GmbH, Client services, Herzogstraße 15, 40217 Düsseldorf; kundenservice@oddo-bhf.com. Any complaints regarding the person who advised on or sold you this product should be addressed directly to that person.

OTHER RELEVANT INFORMATION

The fund is subject to Luxembourg tax law. This may have an impact on the taxation of your income from this fund. Furthermore, other tax regulations may be relevant depending on your personal circumstances. If in doubt, consult a tax advisor.

You can find information regarding performance over the last 10 years on our website: www.am.oddo-bhf.com. If the unit class was launched less than 10 years ago, performance is presented for all complete calendar years since launch. The calculations of previous performance scenarios, updated monthly, can be found at am.oddo-bhf.com. For more information on the Fund's environmental and/or social characteristics, please refer to the Annex to the Fund's prospectus.

Details of the Company's current remuneration policy are available at am.oddo-bhf.com. This includes a description of the methods used to calculate the remuneration and benefits paid to specific groups of employees, as well as the identities of the persons responsible for awarding remuneration and benefits and the integration of sustainability risk management into the remuneration. A paper copy may be requested from the Company free of charge.

The Company can only be held liable where information obtained from this document was misleading, incorrect or inconsistent with the relevant parts of the Prospectus.
