SFDR Classification²

The EU Sustainable Finance Disclosure Regulation (SFDR) is a set of EU rules which aim to make the sustainability profile of funds transparent, more comparable and better understood by end investors. Article 6: The management team does not consider sustainability risks or adverse effects of investment decisions on sustainability factors in the investment decision making process. Article 8: The management team addresses sustainability risks by integrating ESG criteria (Environment and/or Social and/or Governance) into its investment decision making process. Article 9: The management team follows a strict sustainable investment objective that significantly contributes to the challenges of the ecological transition, and addresses Sustainability Risks through ratings provided by the Management Company's external ESG data provider.

Fund profile

INVESTMENT STRATEGY

The investment objective is to outperform the ESTER index +2% (capitalised), net of fees, on an annual basis. The Sub-fund does not have a benchmark. Given the Fund's discretionary management style, its management is not linked to any index. The fund may be invested up to 100% in debt securities. These securities will be issued by issuers whose registered office is located in an OECD country up to a minimum of 70%. The Sub-Fund may only invest in instruments issued by entities rated at least B.

Benchmark : Nil

Sustainalytics provides company-level analysis used in the calculation of Morningstar's Sustainability Score.

(1) The summary risk indicator (SRI) is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the market or because we are not able to pay you. It ranges from 1 (low risk) to 7 (high risk). This indicator is not constant and will change according to the fund's risk profile. The lowest category does not mean risk-free. Historical data, such as that used to calculate the SRI, may not be a reliable indication of the fund's future risk profile. There is no guarantee that the investment objectives in terms of risk will be achieved.

(2) Information on the EU Sustainable Finance Disclosure Regulation (SFDR) can be found in the SFDR classification(2) section of the document.

Glossary - Definition of impact measurement indicators

ESG Quality Score

This score represents the weighted average of the ESG scores for each position in the portfolio.

Generation Fossil Fuels

Source MSCI: This factor identifies the maximum percentage of revenue (either reported or estimated) that a company derives from the fossil fuel (thermal coal, liquid fuel and natural gas) based power generation.

Environmental Impact Solutions

Source MSCI: This field represents the total of all revenues derived from any of the six environmental impact themes including alternative energy, energy efficiency, green building, pollution prevention, sustainable water, or sustainable agriculture.

Carbon intensity

This figure represents the company's most recently reported or estimated Scope 1 + Scope 2 greenhouse gas emissions normalized by sales in USD, which allows for comparison between companies of different sizes.

Carbon metrics methodology: We updated our methodology of carbon intensity calculation.

Starting January 31st, 2023, when reported carbon values are unavailable or inconsistent, estimated carbon values are used.

The estimations are based on average carbon value (scope 1+2 emissions) of sectoral peers as a function of revenues

Implementation of Human rights policy

Percentage of companies in the portfolio that have implemented one or more initiatives to protect human rights compared to the benchmark.

None of the ESG Parties shall have any liability for any errors or omissions in connection with any data herein, or any liability for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages.

If ODDO BHF Asset Management GmbH receives any rebates on the management fee of target funds or other assets, ODDO BHF Asset Management GmbH undertakes to fully remit such payment to the investor or the fund. If ODDO BHF Asset Management GmbH performs services for an investment product of a third party, ODDO BHF Asset Management GmbH will be compensated by the relevant company. Typical services are investment management or sales activities for funds established by a different investment management company. Normally, such compensation is calculated as a percentage of the management fee (up to 100%) of the respective fund, calculated on the basis of such fund's assets managed or distributed by ODDO BHF Asset Management GmbH. This may result in the risk that the investment advice given may not be consistent with the investor's interest. The amount of the management fee is published in the prospectus of the respective fund. Further details are available upon request. It is further intended solely for persons based in countries in which the respective funds are registered for distribution or in which such registration is not required. The shares of the fund have not been registered under the United States Securities Act of 1933, as amended (the "1933 Act"); they may therefore not be publicly offered or sold in the United States of America or to US citizens or any US residents. This publication is intended as marketing instrument and does not satisfy the statutory requirements regarding the impartiality of a financial analysis, and the financial instruments concerned are not subject to any prohibition of trading in advance of the publication of this presentation.
