Key information document

ODDO BHF Europe Equity Trend CNw-EUR

PURPOSE

This document provides you with key information about this investment product. It is not marketing material. This information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

PRODUCT

Name: ODDO BHF Europe Equity Trend CNw-EUR
Manufacturer: ODDO BHF Asset Management GmbH
ISIN: DE000A2P5QE2
Website: am.oddo-bhf.com
Further information can be obtained by calling: +49 (0)211 23924-01
The fund is a UCITS fund established in Germany. It is managed by ODDO BHF Asset Management GmbH (the "Company"). The Company is part of the ODDO BHF Group.
The German Federal Financial Supervisory Authority (*Bundesanstalt für Finanzdienstleistungsaufsicht* – BaFin) is responsible for the supervision of ODDO BHF Asset Management GmbH in relation to the key information document.
Date of preparation of this key information document: 01/10/2026

WHAT IS THIS PRODUCT?

TYPE

The fund is a UCITS fund established in Germany.
The units may only be acquired as part of a portfolio management mandate or fee-based investment advisory service. The returns obtained by the unit class are reinvested in the fund, not distributed.

TERM

The fund was established for an indefinite period. The Company is entitled to terminate its management of the fund by way of an announcement in the German Federal Gazette and in the annual or half-yearly report. Please refer to the section, "How long should I hold it and can I take money out early?" for information regarding the terms and frequency of redemptions.

OBJECTIVES

The fund invests in European equities. At least 90% of fund assets are invested in equities. Sustainability risks are incorporated into its investment process by taking into account both ESG (environmental, social and governance) characteristics and any principal adverse impacts that investment decisions may have on sustainability factors. Equities are rated on the basis of ESG research and using a trend-following model. This model uses extensive historical data to analyse trends and send buy and sell signals. The portfolio composition process involves optimising ESG and risk management by applying various constraints in terms of ESG valuation, beta, sector/country concentration, tracking error and turnover rate of the final portfolio. Aside from the emphasis on the ESG aspect, there is no manual intervention in the investment decisions of the trend-following model (except in cases of major controversy). Fluctuations and price falls on the equity markets do not lead to any reallocations within the fund until the tracked positive trend of the equities in question comes to an end or other equities are rated as being more attractive. The aim of investing in the fund is to obtain a sustainable return from the income and capital growth of investments in securities while minimising the economic risks.
The fund follows the STOXX Europe 600 Index as its benchmark index** but does not replicate it exactly. The fund management actively decides on the selection of assets at its discretion, taking into consideration quantitative analysis and company valuations. It seeks to outperform the benchmark index, as a result of which significant differences, both positive and negative, between the fund and the benchmark index are possible.
The fund is an Article 8 fund under SFDR***.

The Bank of New York Mellon SA/NV, Asset Servicing, Frankfurt am Main branch, is the depositary for this Fund.

You can find further practical information (in English) on the fund, the prospectus, annual and semi-annual reports and the current issue and redemption prices free of charge on our website am.oddo-bhf.com.

INTENDED RETAIL INVESTOR

The fund is aimed at all investors whose objective is wealth creation and/or optimisation. Investors should be in a position to sustain fluctuations in value and considerable losses and should need no guarantee that the original amount invested will be returned. In some circumstances, the fund may not be suitable for investors who wish to liquidate their investment in the fund within three years. The Company's assessment does not constitute investment advice. Its purpose is to give investors an initial indication of whether the fund is appropriate for them, given their level of experience, risk appetite and investment horizon.

INSURANCE BENEFITS AND COSTS

Insurance costs are not included in the calculations.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

The risk indicator assumes you keep the product for three years. The actual risk can vary significantly if you cash in at an early stage and you may get back less

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified the risk of this product as 4 on a scale of 1 to 7, whereby 4 corresponds to a risk class of medium. The risk of potential losses from future performance is assessed as medium. It is possible that the ability to execute your redemption request will be jeopardised by unfavourable market conditions.

The following key risks are not fully accounted for by the risk indicator:
Unusual market conditions or large-scale, unforeseeable events may exacerbate the risks associated with this fund and result in an increase in other risks, such as counterparty risk, liquidity risk and operational risk.

A detailed description of all risks can be found in the fund's Prospectus under "Risk Information". This product does not include any protection from future market performance so you could lose some or all of your investment.

PERFORMANCE SCENARIOS

The amount you ultimately receive with this product will depend on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: 3 years
Example investment: EUR 10,000

Scenarios		If you exit after 1 year	If you exit after 3 years
Minimum	**There is no minimum guaranteed return. You could lose some or all of your investment.**		
Stress	**What you might get back after costs**	EUR 3,890	EUR 4,530
	Average return each year	-61.1%	-23.2%
Unfavourable	**What you might get back after costs**	EUR 7,460	EUR 9,650
	Average return each year	-25.4%	-1.2%
Moderate	**What you might get back after costs**	EUR 10,290	EUR 11,910
	Average return each year	2.9%	6.0%
Favourable	**What you might get back after costs**	EUR 12,920	EUR 16,500
	Average return each year	29.2%	18.2%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor, or the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market conditions.
The unfavourable scenario occurred for an investment between March 2017 and March 2020. The moderate scenario occurred for an investment between September 2016 and September 2019. The favourable scenario occurred for an investment between December 2018 and December 2021.

WHAT HAPPENS IF COMPANY IS UNABLE TO PAY OUT?

The default of the Company will have no direct impact on your payment, as in the event of insolvency, legal provisions stipulate that the fund will not form part of the insolvency estate but will remain independent.

WHAT ARE THE COSTS?

The person selling you or advising you on this product may charge you additional costs. If so, this person will inform you of these costs and show you the impact that these costs will have on your investment.

COST OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product for, and how well the product performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

— In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
— EUR 10,000 invested.

Scenarios

	If you exit after 1 year	If you exit after 3 years
Total costs	EUR 622	EUR 966
Annual cost impact*	6.3%	3.2%

*This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the end of the recommended holding period your average return per year is projected to be 9.2% before costs and 6.0% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

COMPOSITION OF COSTS

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	5.00% of the amount you pay when you initiate this investment. These costs are already included in the price you pay. This includes distribution costs. This is the amount you will be charged. The person selling you the product will inform you of the actual charge.	EUR 500
Exit costs	We do not charge an exit fee for this product.	EUR 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.95% of the value of your investment per year. This is an estimate based on actual costs over the last year.	EUR 90
Transaction costs	0.34% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	EUR 32
Incidental costs taken under specific conditions		
Performance fees	No performance fee is charged.	EUR 0

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period: 3 years

This product is suitable for medium-term investments. In principle, units in the fund can be redeemed. The Company may suspend the issue and redemption of units if deemed necessary under exceptional circumstances, taking into account the interests of investors. In order to manage liquidity risks, the Company may suspend the redemption of units if the investors' redemption requests exceed a predefined threshold above which such requests can no longer be carried

out in the interest of all investors as a whole. The Company may implement measure such as swing pricing, whereby the costs arising from issues and/or redemptions (e.g. transaction costs) are apportioned to investors according to origin, thereby reducing the risk of dilution for investors remaining in the Fund. Please refer to the Prospectus for further details in this regard.

HOW CAN I COMPLAIN?

If you have any complaints, please contact ODDO BHF Asset Management GmbH, Client services, Herzogstraße 15, 40217 Düsseldorf; kundenservice@oddo-bhf.com. Any complaints regarding the person who advised on or sold you this product should be addressed directly to that person.

OTHER RELEVANT INFORMATION

The fund is subject to German investment tax law. This may have an impact on the taxation of your income from this fund. Furthermore, other tax regulations may be relevant depending on your personal circumstances. If in doubt, consult a tax advisor.

You can find information regarding performance over the last 10 years on our website: www.am.oddo-bhf.com. If the unit class was launched less than 10 years ago, performance is presented for all complete calendar years since launch. The calculations of previous performance scenarios, updated monthly, can be found at am.oddo-bhf.com. For more information on the fund's environmental and/or social characteristics, please refer to the Annex to the fund's prospectus.

Details of the Company's current remuneration policy are available at am.oddo-bhf.com. This includes a description of the methods used to calculate the remuneration and benefits paid to specific groups of employees, as well as the identities of the persons responsible for awarding remuneration and benefits and the integration of sustainability risk management into the remuneration. A paper copy may be requested from the Company free of charge.

The Company can only be held liable where information obtained from this document was misleading, incorrect or inconsistent with the relevant parts of the Prospectus.
