The Autorité des marchés financiers (AMF) is responsible for supervising ODDO BHF Asset Management SAS in relation to this Key Information Document. ODDO BHF Asset Management SAS is authorised in France under number GP99011 and regulated by the Autorité des marchés financiers.

Date of production of the Key Information Document: 6 October 2025

WHAT IS THIS PRODUCT?

TYPE

ODDO BHF Global Navigator is a UCITS under Directive 2009/65/EC, taking the form of a SICAV.

The Board of Directors may propose the liquidation of the SICAV at an Extraordinary General Meeting if the assets fall below the regulatory minimum. It may also do so on a discretionary basis, after the Autorité des marchés financiers has approved the liquidation and shareholders have been informed.

TERM

ODDO BHF Global Navigator was created on 1 July 2025 for an indefinite term.

OBJECTIVES

The Sub-fund aims to generate long-term capital growth by investing through UCITS, other UCIs and ETCs (exchange-traded commodities) targeting diverse asset classes worldwide.

The Sub-fund is actively managed with reference to a benchmark index composed of 60% MSCI AC World NR and 40% Bloomberg Global Aggregate Bond for the purposes of comparison.

It will invest indirectly through UCITS and other UCIs in equities and fixed income securities of all types in international markets.

In particular, the Sub-fund will invest between 80% and 100% of its net assets in UCITS (including ETFs) and/or UCIs to gain exposure to equities, fixed income securities (investment grade and/or high yield), money market instruments and derivatives. Exposure to equities and bonds is based on in-depth analysis of the microeconomic and macroeconomic environments. When conditions on stock markets are favourable, the Sub-fund tends to overweight equities and otherwise favours bonds.

The Sub-fund may invest up to 10% of its assets in ETCs.

The Sub-fund may hold up to 20% of its net assets in cash on a temporary and ancillary basis. The Sub-fund may also hold cash equivalents in order to pay redemption proceeds or meet other liquidity requirements. These assets may include money market instruments.

The Sub-fund may also seek indirect exposure to the following assets (as a % of its net assets):

- Up to 10% in commodities other than precious metals (in particular through ETFs, ETCs, units or shares of UCITS and/or open-ended UCIs);
- Up to 10% in precious metals (in particular through ETFs, ETCs, units or shares of UCITS and/or open-ended UCIs);
- Up to 40% in securities from emerging countries that are not OECD member states.

The Sub-fund may be exposed to currency risk up to 100% of its assets and to non-OECD currencies up to 40%.

The Sub-fund may use derivatives for investment, efficient portfolio management and hedging purposes.

Derivatives may include:

- futures contracts (equities, bonds, currencies)
- options (equities, bonds, currencies)
- forward contracts (currencies)

The Sub-fund’s net exposure to instruments (including derivatives) may not exceed 150% of its net assets. The maximum net exposure is the sum of the net exposures to each market to which the Sub-Fund is exposed (the sum of long and hedging positions). The Sub-Fund may use financial derivatives instruments to hedge currency risk or to hedge or gain exposure to equity risk, interest rate risk or credit risk (for efficient portfolio management). The Sub-Fund may in particular have the possibility, at the discretion of the Management Company and the Investment Manager, to enter into Credit Default Swaps (Index) as buyer or seller.

The Sub-Fund doesn’t use total return swaps, repurchase agreement, reverse repurchase agreement, securities lending and borrowing securities.

Subscription, conversion and redemption requests are centralised by the transfer agent (CACEIS Bank, Luxembourg Branch) every net asset value valuation day until 12:00 (Luxembourg time, CET/CEST) and executed on the basis of the net asset value of that day. Fees linked to the purchase and sale of securities (also referred to as “transaction costs”) are payable by the sub-fund. They are added to the fees outlined in this document and reduce the Sub-fund’s returns.

Diw-EUR shares distribute their income, as decided by the board of directors on a yearly basis.

INTENDED RETAIL INVESTOR

This sub-fund is suitable for investors wishing to gain exposure to the bond and equity markets over a recommended investment horizon of five years through tactical allocation and who are willing to accept the risks arising from such exposure. US Persons may not invest in this product.

More detailed information on the Sub-fund, such as the prospectus (in French, English and German) and the annual and semi-annual reports translated into the languages of the Sub-fund’s distribution countries, is available at am.oddo-bhf.com or may be obtained free of charge at any time from the registered office of the SICAV, located at 5 allée Scheffer, L-2520 Luxembourg, Grand Duchy of Luxembourg or from the centralising agent in the distribution country. Detailed information on the remuneration policy is available on the management company’s website (am.oddo-bhf.com). Investors may also request a hard copy of this information from the management company. The agreement entered into pursuant to Article 79 of the Law of 2010, as described in more detail in Appendix 1, Section I of the Prospectus, may be consulted by Sub-fund investors on request.

The Sub-fund’s custodian is CACEIS Bank, Luxembourg Branch

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

RISK INDICATOR

The risk indicator assumes you keep the product until the end of the recommended holding period, i.e. five years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely impact our capacity to pay you. Currency risk: you will be paid in a different currency; your actual gain will therefore depend on the exchange rate between the two currencies. This risk is not taken into account in the above indicator:

Other materially relevant risks not taken into account in the indicator:

Other risks not taken into account in the risk indicator may be materially relevant. They include:

the impact of financial techniques, liquidity risk and counterparty risk. As this product does not offer protection from market hazards, you could lose some or all of your investment.

As this product does not offer protection from market hazards, you could lose some or all of your investment.

PERFORMANCE SCENARIOS

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years with a one-year horizon and over the recommended investment period.

Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: 5 years

Investment: €10,000

Scenarios		If you exit after 1 year	If you exit after 5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	€6,140	€5,810
	Average return each year	-38.6%	-10.3%
Unfavourable	What you might get back after costs	€8,610	€10,260
	Average return each year	-13.9%	0.5%
Medium	What you might get back after costs	€10,380	€13,480
	Average return each year	3.8%	6.2%
Favourable	What you might get back after costs	€12,110	€14,700
	Average return each year	21.1%	8.0%

The unfavourable scenario occurred for an investment between: 08/2024 and 08/2025.

The medium scenario occurred for an investment between: 12/2015 and 12/2020.

The favourable scenario occurred for an investment between: 03/2020 and 03/2025.

WHAT HAPPENS IF ODDO BHF ASSET MANAGEMENT SAS IS UNABLE TO PAY OUT?

The product is a co-ownership of financial instruments and deposits separate from the portfolio's Management Company. In the event of the company's insolvency, the product's assets, which are held by the custodian, would be unaffected. In the event of the custodian's insolvency, the risk of financial loss on the product would be mitigated by the legal segregation of the custodian's assets from the product's assets.

WHAT ARE THE COSTS?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts taken from your investment to cover the different types of cost. These amounts depend on how much you invest, how long you hold the product, and the return on the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year, you would get back the amount that you invested (0% annual return). For the other holding periods, we have assumed the product performs as shown in the moderate scenario.
- €10,000 is invested

Investment: €10,000

Scenarios	If you exit after 1 year	If you exit after 5 years
Total costs	€242	€492
Annual cost impact*	2.4%	0.9%

*This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the end of the recommended holding period your average return per year is projected to be 7.0% before costs and 6.2% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

COMPOSITION OF COSTS

The table below indicates the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period, and the meaning of the different cost categories.
