\*The glossary of indicators used is available for download on [www.am.oddo-bhf.com](http://www.am.oddo-bhf.com) in the FUNDS section. | Sources : ODDO BHF AM SAS, Bloomberg, Morningstar® Sustainalytics provides company-level analysis used in the calculation of Morningstar's Sustainability Score.

(1) The summary risk indicator (SRI) is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the market or because we are not able to pay you. It ranges from 1 (low risk) to 7 (high risk). This indicator is not constant and will change according to the fund's risk profile. The lowest category does not mean risk-free. Historical data, such as that used to calculate the SRI, may not be a reliable indication of the fund's future risk profile. There is no guarantee that the investment objectives in terms of risk will be achieved.

(2) Information on the EU Sustainable Finance Disclosure Regulation (SFDR) can be found in the SFDR classification(2) section of the document.

## SUSTAINABLE REPORT - METHODOLOGY

ODDO BHF AM considers that measuring the environmental, social and governance impact of an investment is an essential step in disseminating good practices in ESG integration. To do this, it is imperative to have reliable, simple quantitative criteria (no reprocessing) and to allow comparison between portfolios regardless of their composition (large vs midcaps, geographical and sectoral diversity). The choice of indicators is therefore crucial for the relevance of impact measurement.

We systematically indicate the availability of the data at the level of the portfolio and its benchmark.

For more information on the ODDO BHF Asset Management ESG methodology, please refer to the [Sustainable investing & ESG document](#) available on [www.am.oddo-bhf.com](http://www.am.oddo-bhf.com)

\*ESG rank at the end of the period: In accordance with the update to our ESG integration policy, the internal ESG rating scale now ranks the investment universe from 1 (High Risk) to 5

\*\* : rebased on the rated part of the fund

## MONTHLY MANAGEMENT COMMENT

In February 2026, the European High Yield market (HEAG) gained 0.35% with spreads wider by 9 bp to an ending level of 230 bps. Year-to-date it delivered a 0.93% performance. The positive performance was supported by continuous inflows into the asset class and constructive economic data. Market sentiment, however, was clouded by volatile precious metal prices and increasing concerns that artificial intelligence may disrupt many existing business models. Despite this backdrop, macroeconomic indicators remained stable: in the US, Composite PMI was still strong at 52.3, albeit lower than last month (53.0). In Europe, it was stable at a good level i.e. 51.9 (vs 51.3 previous month). Reported inflation data during the month were in line with expectations in the US with Core CPI at 2.5%. In Europe, it was slightly lower than expectations at 2.2%. US rates were strongly down this month with the US 10Y treasury yield ending the month at 3.94% (-30 bps). In Europe, the German 10Y Bund was also down ending the month at 2.64% (-20 bps). Companies' results showed unchanged trends with continued weaknesses, especially in the automotive and the chemical sector. The outlook given by issuers from all sectors stayed muted. There were some new issues this month. The gross issuance in 2026 is higher, so far, with €15.3bn YTD vs. €9.2bn last year YTD, the new issues have been well absorbed by the market. The fund maintained its overall risk position. It increased exposure to issuers showing a solid credit trend. Entering 2026, the volatility of credit markets is expected to be influenced by monetary policy, economic growth, company results, the sovereign risks as well as geopolitics. In this market environment credit selection is essential.

## RISKS:

The fund is exposed to the following risks :risk of capital loss, interest rate risk, credit risk, risk associated with discretionary management, risk associated with commitments on forward financial instruments, counterparty risk, liquidity risk of underlying assets, risk associated with high yield bonds, emerging markets risk, volatility risk, Sustainability risk and on an ancillary basis currency risk, risk associated with convertible bonds, risk associated with currency conversion

## SFDR CLASSIFICATION<sup>2</sup>

The EU Sustainable Finance Disclosure Regulation (SFDR) is a set of EU rules which aim to make the sustainability profile of funds transparent, more comparable and better understood by end investors. Article 6: The management team does not consider sustainability risks or adverse effects of investment decisions on sustainability factors in the investment decision making process. Article 8: The management team addresses sustainability risks by integrating ESG criteria (Environment and/or Social and/or Governance) into its investment decision making process. Article 9: The management team follows a strict sustainable investment objective that significantly contributes to the challenges of the ecological transition, and addresses Sustainability Risks through ratings provided by the Management Company's external ESG data provider.

## DISCLAIMER

This document has been drawn up by ODDO BHF AM SAS. Potential investors should consult an investment advisor before subscribing to the fund. The investor is informed that the fund presents a risk of capital loss, but also many risks linked to the financial instruments/strategies in the portfolio. In case of subscription, investors must read the Key Information Document (KID) and the fund's prospectus in order to acquaint themselves with the detailed nature of any risks incurred and all costs. The value of the investment may vary both upwards and downwards and may not be returned in full. The investment must be made in accordance with investors' investment objectives, their investment horizon and their capacity to deal with the risk arising from the transaction. ODDO BHF AM SAS cannot be held responsible for any direct or indirect damages resulting from the use of this document or the information contained in it. This information is provided for indicative purposes and may be modified at any moment without prior notice. Any opinions presented in this document result from our market forecasts on the publication date. They are subject to change according to market conditions and ODDO BHF AM SAS shall not in any case be held contractually liable for them. The net asset values presented in this document are provided for indicative purposes only. Only the net asset value marked on the transaction statement and the securities account statement is authoritative. Subscriptions and redemptions of mutual funds are processed at an unknown asset value.
