1. INFORMATION ON INVESTMENTS AND MANAGEMENT OF THE FUND

1.1 Classification

The fund is a “Euro Zone Equities” fund.

1.2 Investment objective

The investment objective is to seek long-term capital growth by outperforming its benchmark, the MSCI EMU SMID Cap Net Return, over a minimum investment horizon of five years.

1.3 Tax regime

The Fund is eligible for the French Equity Savings Plan (*Plan d'Épargne en Actions* or PEA).
The Fund may be used for units of account in life insurance policies.

As of 1 July 2014, the Fund shall be governed by the provisions of Appendix II, point II.B. of the Agreement (IGA) signed on 14 November 2013 between the government of the French Republic and the government of the United States of America so as to improve compliance with tax obligations at an international level and implement the act governing compliance with these obligations for foreign accounts (FATCA).

This annual report does not purport to set out the tax implications for investors of subscribing, redeeming, holding or selling the Fund's units. These implications will vary, depending on the laws and practices that apply in the country of residence, domicile or incorporation of the unitholders and on their personal situations.

Depending on your tax status, your country of residence or the jurisdiction from which you invest in the Fund, any capital gains and income resulting from the holding of units of the Fund may be subject to taxation. We advise you to consult a tax advisor in relation to the potential consequences of purchasing, holding, selling or redeeming units of the Fund according to the laws of your country of tax residence, ordinary residence or domicile.

Neither the Management Company nor the promoters shall accept any responsibility whatsoever for any tax consequences that may arise for investors following a decision to purchase, hold, sell or redeem units of the Fund.

1.4 Regulatory information

- The Fund does not hold any financial instruments issued by companies linked to the Oddo BHF group.
- UCITS held by the Fund and managed by the management company at the Fund's reporting date: see annual financial statements in the appendices.
- **Overall risk calculation method for the Fund:** the method chosen by Oddo BHF Asset Management to measure the overall risk to the Fund is the commitment approach.
- **Environmental, social and governance criteria:**
The Fund does not take the three criteria relating to compliance with environmental, social and governance (ESG) objectives into account simultaneously. Full information about ESG criteria can be accessed on the Oddo BHF Asset Management website at the following address: www.am.oddo-bhf.com.
- Within the framework of its risk management policy, the portfolio management company establishes, implements and maintains a risk management policy and procedures that are effective, appropriate and

documented, thereby allowing risks associated with its activities, processes and systems to be identified.

For further information, please consult the KIID of this UCI, and particularly the “Risk and reward profile” section, or its full prospectus, which are available on request from the management company or on the website www.am.oddo-bhf.com.

- Proportion of assets invested in securities or rights eligible for the French Equity Savings Plan (*Plan d'Épargne en Actions* or PEA): 88.08%

1.5 Code of ethics

- **Management of intermediaries**
The management company has implemented a policy for the selection and evaluation of intermediaries and counterparties. The evaluation criteria used are intermediary fees, quality of execution in view of market conditions, quality of investment advice, quality of research and analysis documents and quality of back-office execution. This policy may be consulted on the management company's website at www.am.oddo-bhf.com.
- **Brokerage fees**
FCP unitholders can consult the document entitled “Report on brokerage fees” on the management company's website, www.am.oddo-bhf.com.
- **Voting rights**
No voting rights are attributed to unitholders, decisions concerning the Fund being taken by the Management Company. The voting rights attached to the securities held by the Fund are exercised by the Management Company, which has the sole power to take decisions, pursuant to regulations in force. The Management Company's voting policy may be consulted at its registered office or online at www.am.oddo-bhf.com, in accordance with article 314-100 of the AMF General Regulation.
- **Information on the remuneration policy**
Regulatory information on remuneration is appended to this report.

1.6 Information on the efficient investment techniques and derivatives used in the fund

Type of transactions used:

Reverse repurchase agreements to generate income on the fund's non-invested cash;
Repurchase agreements and securities lending to generate additional income and contribute to the fund's performance.
Currency forward contracts designed to provide currency hedging for assets denominated in foreign currency.

Exposure:

Reverse repurchase agreements: the risk exposure consists in receiving fixed income securities from investment grade issuers in exchange for cash.
Securities lending and repurchase agreements: the risk exposure consists in receiving cash as collateral, invested either in repurchase agreements in the form of investment grade fixed income securities or in term deposits with Oddo BHF, in exchange for securities.

Counterparties at the end of the financial year:

Asset management company incorporated in the form of a *société par actions simplifiée* (simplified joint stock company) with share capital of EUR 7,500,000

Approved by the *Autorité des marchés financiers* under the number GP 99011 - RCS 340 902 857 Paris
12 boulevard de la Madeleine - 75440 Paris Cedex 09 France

Tel: 33 (0)1 44 51 85 00 – www.am.oddo-bhf.com

Reverse repurchase agreements: Oddo BHF SCA, BNP, Natixis, Cacib, Société Générale
Securities lending and repurchase agreements: Oddo BHF SCA

Income/fees:

The management company receives no remuneration from temporary purchases and sales of securities. The remuneration is divided equally between the fund and the counterparty. In this respect, the income generated by temporary purchases and sales of securities amounts to EUR 0.

1.7 Changes during the financial year

- 13/02/2019: In its capacity as management company, ODDO BHF ASSET MANAGEMENT SAS has decided to amend the prospectus of the ODDO BHF AVENIR EURO fund in order to comply with Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 regarding the benchmarks used by the Fund:

Changes made to the Fund prospectus include:

- ✓ a reference to the registration of the benchmark administrator in the register for benchmark administrators maintained by the ESMA, and
- ✓ confirmation of the Management Company's implementation of a procedure for monitoring the benchmarks used, describing the actions to be taken in the event that a benchmark materially changes or ceases to be provided.

1.8 SFTR reporting

Securities financing transactions in accordance with the SFTR: the fund did not engage in securities financing transactions during the financial year ended 28 June 2019.

2. MANAGEMENT REPORT

2.1 Macroeconomic climate and equity market performances in 2018–19

The period under review was a turbulent time for the equity markets, but despite this they managed to achieve fairly strong performances that do not necessarily reflect the renewed concern over the health of the global economy. The S&P 500 posted a gain of 8.22%, the STOXX 50 for Europe rose by 4.47% and the Shanghai composite index closed 4.62% higher.

H2 2018 brought a sweeping decline across equity, bond, gold and commodity markets. The markets suffered as a result of: 1) Concern over the pace of global growth, in particular in China. 2) The trade war between the United States and China, with both sides ratcheting up import tariffs. 3) Political upheaval in Europe adding to this worrying picture: the question of the UK's departure from the European Union still being unresolved, the worrying political and economic situation in Italy, etc.

However, the major stock market indices achieved remarkable performances over H1 2019, with gains achieved over the first quarter holding firm despite higher levels of volatility in the second quarter. Some indices even compensated for 2018 losses by rising to record highs. The two main threats weighing on indices in 2018 had been eliminated. The risk of a global economic slowdown, exacerbated by an attempt by the United States to strong-arm China into immediately levelling the playing field for international trade, prompted central banks to amend their strategies. Back in January, the Fed announced it was shelving plans to introduce further interest rate rises and taking a break from efforts to reduce the size of its balance sheet. The ECB followed suit a few weeks later. Since then, more constructive progress has been made in talks between the United States and China. The prospect of a return to a calmer business climate enabled financial market stakeholders to plan ahead and not attach too much importance to the gloomy macroeconomic statistics that characterised the start to the year. Uncertainty on the terms of the UK's exit from the European Union seems to have been tuned out as background noise and not had a major impact on the markets. The lowest interest rates since 2016 and hopes of renewed global growth carried equity indices to historic highs.

2.2 Performance

Broad-based indices, which are less cyclical, understandably outperformed small and mid-cap indices. For example, the EURO STOXX 50 NR rose by 5.12% and the MSCI EMU NR by 2.04%, whereas the MSCI EMU SMID Cap NR ended the period down 2.24%.

These concerns prompted considerable sector rotation, compounded by corporate earnings announcements, for which disappointing companies paid dearly. The best performances were achieved by the defensive sectors, which were the main beneficiaries of the trend: food & drink (+17.6%), health care (+11.3%) and insurance (+10.3%). Conversely, the banking (-17.1%), automotive (-10.5%), and hotels and leisure (-10.7%) sectors suffered additional significant losses.

Against this backdrop, CR units of the ODDO BHF AVENIR EURO fund fell by 1.54%. This was in line with the performance of its benchmark (MSCI EMU SMID CAP NR), which dropped by 2.23%.

Nine stocks with weightings of over 1% already held in the portfolio at 30 June 2018 still had or posted positive performance exceeding 10%.

However, the fund suffered from the overrepresentation of industrial stocks, with 13 continuing to suffer losses in excess of 10%.

Unit	Annual performance	Benchmark index
ODDO BHF AVENIR EURO CI-EUR	-0.55%	-2.23%
ODDO BHF AVENIR EURO CN-EUR	-0.43%	
ODDO BHF AVENIR EURO CR-EUR	-1.54%	
ODDO BHF AVENIR EURO GC-EUR	-0.55%	
ODDO BHF AVENIR EURO CP-EUR	-0.35%	

2.3 Transactions

In the industrial segment: In the capital goods segment, we initiated positions in: Weir Group (engineering, UK), Wartsila (solutions for the maritime industry, Finland), Valmet (industrial equipment, Finland) and Aalberts NV, through the partial or total sale of Andritz (industrial equipment, Austria), Kronos (bottling and packaging, Germany), Kion Group AG (lifting equipment, Germany), Koenig & Bauer (rotary presses, Germany) and Johnson Matthey (specialist chemicals, UK). We also reduced our exposure to the automotive sector by scaling back our position in Faurecia (automotive equipment, France) and Pirelli (tyres, Italy).

In the technology segment: We sold all or part of our positions in CTS Eventim (online booking solutions, Germany) and Dassault Systèmes (3D software publisher, France) in favour of ALTEN (consultancy and engineering, France) and Worldline (payment solutions, France).

In the consumer spending segment: In the services segment, we added: G4S (security services, UK) and strengthened Sodexo (catering, France), which we financed by scaling back our line in SEB SA (small domestic appliances, France).

In the health care segment, we bought Eurofins Scientific (analysis and certification, France) and added to our positions in Icon Plc (outsourcing for the pharmaceutical industry, Ireland) and bioMérieux (pharmaceutical laboratory, France), as well as scaling back our positions in Carl Zeiss Meditec (medical optics, Germany) and GN Store Nord (hearing aids, Denmark) in light of their stock market performance.

The main purchases/sales during the last financial year:

Portfolio	Stock	Purchase	Disposal	Currency
ODDO BHF Avenir Euro	Oddo BHF Jour CI EUR Cap	27,686,340.95		EUR
ODDO BHF Avenir Euro	Oddo BHF Jour CI EUR Cap		21,878,458.00	EUR
ODDO BHF Avenir Euro	SAFRAN SA		18,900,164.13	EUR
ODDO BHF Avenir Euro	Pirelli & C. SpA Reg		16,598,660.80	EUR
ODDO BHF Avenir Euro	Michelin SA		16,186,498.17	EUR
ODDO BHF Avenir Euro	SEB SA		15,950,745.63	EUR
ODDO BHF Avenir Euro	Icon Plc	15,373,283.15		EUR
ODDO BHF Avenir Euro	Faurecia SA		14,403,147.36	EUR
ODDO BHF Avenir Euro	MTU Aero Engines AG		13,931,410.11	EUR
ODDO BHF Avenir Euro	Alstom		10,755,103.42	EUR

2.4 Outlook

The outlook for the coming months remains unclear. Disruption linked to Brexit, US trade policy and China's economic slowdown are weighing heavily on all economies. These issues continue to be top priorities for central banks and will determine their ability to maintain their dovish monetary policies. In these conditions, we are keeping our investment policy unchanged, with a focus on global companies with strong leadership that generate value at all stages of the cycle. They will remain better able to avoid the pitfalls that might still be possible in the short term.

3. ANNUAL FINANCIAL STATEMENTS OF THE FUND

Asset management company incorporated in the form of a *société par actions simplifiée* (simplified joint stock company) with share capital of EUR 7,500,000

Approved by the *Autorité des marchés financiers* under the number GP 99011 - RCS 340 902 857 Paris

ODDO BHF AVENIR EURO

Fonds Commun de Placement (FCP)

Management Company:
ODDO BHF Asset Management SAS

12, boulevard de la Madeleine
75009 Paris

Statutory auditor's report on the annual financial statements

Financial year ended 28 June 2019

Dear unitholders of the ODDO BHF AVENIR EUROPE FCP,

Opinion

Following our appointment by the management company, we have audited the annual financial statements of the ODDO BHF AVENIR EURO FCP for the financial year ended 28 June 2019, which are appended to this report.

In our opinion, the annual financial statements, in accordance with French accounting rules and principles, give a true and fair view of the financial position and assets and liabilities of the FCP and of the results of its operations at the end of the financial year.

Basis for the opinion on the annual financial statements

Audit framework

We have conducted our audit in accordance with professional standards applicable in France. We consider that the evidence gathered is pertinent and sufficient to serve as a basis for our opinion.

Our responsibilities in light of these standards are described in this report in the section entitled "Responsibilities of the statutory auditor in relation to auditing the annual financial statements".

Independence

We carried out our audit in accordance with the independence rules applicable to us, for the period from 30 June 2018 to the date on which our report was issued. In particular, we refrained from providing the services prohibited by the code of ethics of the statutory audit industry.

Justification of assessments

In accordance with the provisions of articles L.823-9 and R.823-7 of the French Commercial Code regarding the justification of our evaluations, we hereby inform you that our most important evaluations, in our professional opinion, were focused on the appropriateness of the accounting principles applied, on whether material estimates used were reasonable, and on whether all accounts were presented as per the accounting standards applicable to undertakings for collective investment with variable capital, particularly as regards financial instruments held in the portfolio.

The evaluations were made in the context of the audit of the annual financial statements, taken as a whole, and the formation of the opinion expressed herein. We have not expressed an opinion regarding individual items in the annual financial statements.

Specific verifications

We have also carried out the specific verifications required by laws and regulations in accordance with the professional auditing standards applicable in France.

We have no comment as to the fair presentation and conformity with the annual financial statements of the information given in the management company's management report.

Responsibilities of the management company in relation to the annual financial statements

The management company is responsible for drawing up annual financial statements giving a fair view in accordance with French accounting rules and standards, as well as implementing the internal control system it deems necessary for the drafting of annual financial statements free of material misstatements, whether as a result of fraud or error.

When drawing up the annual financial statements, it is incumbent upon the management company to evaluate the ability of the FCP to continue its operations, to present in these financial statements, where applicable, the necessary information regarding continuity of operations and to apply the going concern accounting principle, unless there is a plan to wind up the FCP or end its activities.

The annual financial statements were prepared by the management company.

Responsibilities of the statutory auditor in relation to auditing the annual financial statements

It is our responsibility to draft a report on the annual financial statements. Our objective is to obtain reasonable assurance that the annual financial statements, viewed in their entirety, are free of material misstatement. Reasonable assurance constitutes a high level of assurance, although not a guarantee, that an audit carried out in accordance with the standards of professional conduct allows for the systematic detection of material misstatements. Such misstatements may result from fraud or error and are considered to be material when it is reasonable to expect that they may, taken individually or collectively,

influence economic decisions that readers of the financial statements may make based on them.

As stipulated in article L.823-10-1 of the French Commercial Code, our certification of the financial statements does not constitute a guarantee of the viability or quality of the management of your FCP.

As part of an audit carried out in accordance with the standards of professional conduct applicable in France, the statutory audit shall exercise its professional judgement throughout this audit. Furthermore:

- It identifies and evaluates the risk that the annual financial statements may include material misstatement, whether resulting from fraud or error, defines and implements auditing procedures in response to these risks, and gathers the items it deems sufficient and appropriate as a basis for its opinion. The risk of material misstatement not being detected is considerably higher when it is the result of fraud rather than error, since fraud may involve collusion, falsification, voluntary omissions, false declarations or the circumvention of the internal control system;
- It assesses the internal control system that is relevant for the audit in order to define audit procedures that are appropriate in the circumstances, and not for the purpose of expressing an opinion on the internal control system;
- It evaluates the appropriateness of the accounting methods used and the reasonableness of the accounting estimates made by the management company, as well as the related information in the annual financial statements;
- It evaluates the appropriateness of the management company's application of the going concern accounting principle and, based on the information gathered, the existence or absence of significant uncertainty linked to events or circumstances likely to cast doubt on the FCP's ability to continue its operations. This evaluation is based on the information gathered prior to the date of its report; however, it should be noted that subsequent circumstances or events may cast doubt on the continuity of its operations. If it concludes that significant uncertainty exists, it draws the attention of readers of its report to the information provided in the annual financial statements giving rise to this uncertainty or, if this information has not been provided or is not relevant, it certifies the annual financial statements with reservations or refuses to certify them;
- It assesses the presentation of all of the annual financial statements and evaluates whether or not the annual financial statements depict the underlying operations and events fairly.

Paris – La Défense, 11 October 2019

Statutory Auditor
Deloitte & Associés

APPENDICES

The Fund has complied with the accounting rules prescribed by the regulations in force and, in particular, with the accounting standards applicable to UCITS.

The annual financial statements are presented in accordance with the provisions of ANC Regulation 2014-01, as amended.

The accounting currency is the EURO.

ASSET VALUATION AND ACCOUNTING RULES

Asset valuation rules:

The calculation of the net asset value per unit is subject to the following valuation rules:

- Financial instruments and transferable securities traded on regulated markets are valued at their market price using the following principles.
- The valuation is based on the last official market price.

The market price used depends on the market on which the instrument is listed:

European markets:	Last market price on the net asset value calculation day
Asian markets:	Last market price on the net asset value calculation day
North and South American markets:	Last market price on the net asset value calculation day

The prices used are those known the following day at 9:00 (Paris time) and collected from financial information providers: Fininfo or Bloomberg.

In the event that no price is available for a security, the last known price is used.

However, the following instruments are valued using the following specific valuation methods:

- Financial instruments that are not traded on a regulated market are valued under the Management Company's responsibility at their foreseeable sale prices.
In particular, transferable debt securities and similar securities that are not traded in large volumes are valued by means of an actuarial method; the reference rate used is that applied to issues of equivalent securities plus or minus, where applicable, a differential reflecting the issuer's specific characteristics. Nevertheless, transferable debt securities with low sensitivity and a residual maturity of less than or equal to three months may be valued using the straight-line method.
- Financial contracts (futures, options or swap transactions concluded on over-the-counter markets) are valued at their market value or at a value estimated according to the terms and conditions determined by the Management Company.
- Financial guarantees: for the purposes of optimal counterparty risk management while also factoring in operational constraints, the Management Company applies a daily margin call system, per fund and per

counterparty, with an activation threshold set at a maximum of EUR 100,000, based on an evaluation of the mark-to-market price.

The method for valuing off-balance sheet commitments consists in valuing futures contracts at their market price and in converting options into the equivalent value of the underlying. Deposits are recorded based on their nominal value plus the interest calculated daily using the Eonia.

The prices used for the valuation of futures or options are consistent with those of the underlying securities. They may vary depending on where they are listed:

European markets:	Settlement price on the NAV calculation day, if different from the last price.
Asian markets:	Last market price on the NAV calculation day, if different from the last price.
North and South American markets:	Last market price on the NAV calculation day, if different from the last price.

In the event that no price is available for a future or option contract, the last known price is used.

Securities subject to a temporary acquisition or sale agreement are valued in accordance with the regulations in force. Securities received under repurchase agreements are recorded on their acquisition date under the heading "Receivables on securities received under a repurchase agreement (pension)" at the value fixed in the contract by the counterparty of the liquidity account concerned. For as long as they are held they are recognised at that value plus the accrued interest from the securities in custody.

Securities transferred under repurchase agreements are withdrawn from their account on the date of the transaction and the corresponding receivable is booked under the heading "Securities transferred under a repurchase agreement (pension)"; they are valued at their market value. The debt represented by securities transferred under repurchase agreements is recorded under the heading "Payables on securities transferred under a repurchase agreement (pension)" by the counterparty of the liquidity account concerned. It is maintained at the value determined in the contract plus any accrued interest on the debt.

- Other instruments: Units or shares of UCITS are valued at their last known net asset value.
- Financial instruments whose prices have not been determined on the valuation day or whose prices have been adjusted are valued under the Management Company's responsibility at their foreseeable sale prices. These valuations and their justification are communicated to the statutory auditor at the time of the audit.

Accounting methods:

Income accounting	The interest on bonds and debt securities is calculated using the accrued interest method.
Transaction cost accounting	Transactions are recorded excluding fees

Allocation of distributable income (income and capital gains)

CR-EUR, CI-EUR, P-EUR, GC-EUR, CR-USD [H] CN-USD [H] and CN-EUR units: accumulation

INFORMATION ON FEES, EXPENSES AND TAXATION

Management and administration fees:

Fees charged to the Fund	Basis	Rate	
		CR-EUR, CI-EUR, P-EUR, GC-EUR, CR-USD [H] and CN-USD [H] units	
Financial management fees and administrative fees not payable to the Management Company (statutory auditor, custodian, distributors, lawyers, etc.)	Net assets	CR-EUR and CR-USD [H] units	Maximum 2% inclusive of tax
		CI-EUR, GC-EUR, CN-USD [H] and CN-EUR units	Maximum 1% inclusive of tax
		P-EUR units	0.8% inclusive of tax
Performance fee	Net assets	Maximum 20% of the Fund's outperformance relative to the benchmark index (MSCI EMU SMID CAP (Net Return)) provided that the Fund's performance is positive (*)	
Transaction fees charged by third parties: - Management Company: 100 %	Payable on each transaction	<u>Equities</u> : depending on the markets, with a maximum of 0.50% inclusive of tax and a minimum of EUR 7.50 exclusive of tax for French equities and EUR 50 exclusive of tax for foreign equities. <u>Bonds</u> : 0.03% inclusive of tax and a minimum of EUR 7.50	

* **Performance fee**: a variable fee based on a comparison between the performance of the unit and that of the benchmark index over the Fund's reference period.

- The performance fee calculation method seeks to determine the "value created by the manager" in absolute terms: this means comparing sums received (i.e. subscriptions) with sums returned (i.e. redemptions) + assets under management (i.e. the total net asset value).

- Sums received are represented by the "indexed NAV" (or fictitious fund), which is the point of comparison. The indexed NAV is calculated in the same manner as a meter: each time the net asset value is calculated, subscriptions from T-1 are indexed using the performance of the comparison index from T-1 to T. This gives us a theoretical NAV, on the basis of which each subscription is immediately invested in the comparison index. The performance fee provision amount is not linked to the amount of subscriptions: for example, if the book NAV rises by EUR 1 million (following a subscription), the indexed NAV will rise by the same amount, meaning the performance fee provision amount is unaltered.

In the event of redemption, the outperformance linked with redemptions shall be subject to a specific provision, separate from the provision for outperformance on assets under management. The outperformance linked to redemptions is defined as a proportion (i.e. the number of units redeemed divided by the total number of units) of the outperformance on assets under management. It is metered and clearly shows the provision for outperformance related to redemptions. The indexed NAV is also adjusted by the redemption ratio. Hence, in the case of redemptions, the provision corresponding to the outperformance of the total NAV is transferred to the provision corresponding to the outperformance of the redeemed shares. However, the total provision is not linked to the amount of redemptions. The outperformance provision linked to redemptions is definitively allocated to the management company and deducted at the end of the financial year.

The Fund's performance is determined on the basis of its book value after taking into account fixed management fees and before deduction of the performance fee.

Once the Fund records a positive performance that exceeds that of its benchmark index in a given reference period, a provision of a maximum of 20% of this outperformance is established upon each NAV calculation.

In the event the Fund underperforms its benchmark index between two net asset values, any previously accumulated provision shall be reduced accordingly. The amounts deducted from the provision cannot exceed the amount previously accumulated.

This variable fee will only be definitively transferred to the Management Company at the end of the reference period and only if, over the reference period, the Fund's performance is positive and exceeds that of its benchmark index. It is deducted from the last NAV calculation of the financial year and paid annually to the Management Company, provided that on that date the reference period is at least equal to one year.

A detailed description of the method used to calculate the performance fee may be obtained from the Management Company.

1. CHANGES IN THE NET ASSETS AT 28/06/2019 IN EUR

	28/06/2019	29/06/2018

APPENDIX 1: THE FUND'S CARBON FOOTPRINT

Oddo Avenir Euro: analytical report

Summary Scope 1 + Scope 2

Analysis table

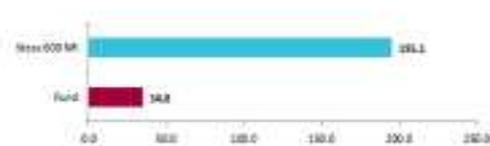

Fund	Number of companies	Reported values	Estimated values	Uncovered values	Uncovered values	Uncovered values	Net Asset Value (EUR)	Scope 1 & 2 emissions (tCO2e)	Carbon Intensity (tCO2e/mill EUR)
ODDO BHF Avenir Euro	42	22	22	1	36%	67%	490,700,000,000	8,902,824,720	18.1

Carbon intensity (metric tonne CO2 equivalent per million EUR total revenue)

Asset class breakdown

Weighted Carbon Intensity ((tCO2e/mill EUR)

ODDO BHF Avenir Euro – Carbon Intensity Report – Data as of 26/06/2019 3

Methodology

Our carbon measurements are based on data provided by companies and updated annually or estimated by third-party suppliers (Sustainalytics). We produce then indicators calculated as follows:

Definition of Carbon Intensity

In tonnes of CO2 equivalent per million revenue, carbon intensity measures the volume of greenhouse gas (GHG) emissions that the portfolio is responsible for in proportion to its share of capital. If an investor holds 1% of the capitalization of a company, then it is responsible for 1% of the company's emissions (in tonnes CO2 eq). The denominator used for the intensity calculation is the revenue. (EUR million)

$$\text{Carbon Intensity per security} = \frac{\text{Scope 1 + Scope 2 emissions of the company (i)}}{\text{revenue of the company (j)}}$$

$$\text{Total Weighted Carbon Intensity} = \sum (\text{Security (x) Carbon Intensity} * \text{Weight of security (x) in the Portfolio})$$

Scope

Scope 1: Direct GHG Emissions are defined as 'emissions from sources that are owned or controlled by the organization', for example, emissions from combustion in owned or controlled boilers, furnaces, vehicles, etc.;

Scope 2: Energy indirect GHG emissions are defined as 'emissions from the consumption of purchased electricity, steam, or other sources of energy (e.g. chilled water) generated upstream from the organization'.

Carbon emissions extend to Scope 1+ Scope 2.

Avoided emissions are not taken into account.

Other indirect GHG emissions defined as 'emissions that are a consequence of the operations of an organization, but are not directly owned or controlled by the organization' (Scope 3) were not included in the calculation of Carbon Intensity due to lack of availability or information homogeneity.

APPENDIX 2: ESG REPORT PURSUANT TO SECTION 173 OF THE ENERGY TRANSITION ACT FOR GREEN GROWTH

The management companies for each of the UCIs with assets of over EUR 500 million must disclose the following information, updated annually, on their website and in the annual report of each UCI:

- ***The nature of the main ESG criteria taken into account, distinguishing, where appropriate, between activities, asset classes and investment portfolios***

Oddo BHF AM SAS does not exclude investments based on sector or theme in its management of open-ended funds, with the exception of companies involved in anti-personnel mines (scope of Ottawa Treaty, 1997) or cluster munitions (scope of Oslo Convention, 2008).

Oddo BHF AM SAS relies on the integrated ESG methodology introduced in 2005 and since developed by the Oddo BHF research team, which covers 10 areas:

- 3 ENVIRONMENTAL areas: environmental management systems (EMS), environmental opportunities, environmental risks.
- 4 SOCIAL areas: regulations, human resources, license to operate/reputation/controversies, social ecosystem (customer satisfaction, supply chain management, innovation, quality of products and services).
- 3 GOVERNANCE areas: sustainable development strategies, corporate governance, business ethics.

Oddo BHF AM SAS has chosen to prioritise the criteria of governance and human resources/management quality.

Sector specificities: Oddo BHF AM SAS reviews cross-sectional ESG criteria for all sectors analysed, such as corporate governance and employee training. However, its approach is above all sectoral and Oddo BHF AM SAS seeks to identify – for all investment sectors – the long-term ESG trends (risks and opportunities), the ESG specificities of the development models in each sector and specific ESG criteria and indicators.

Some sectors are driven by environmental (e.g. chemistry, energy), social (e.g. distribution, hotels/leisure) or governance (finance) issues. The ESG weighting models and the ESG quantitative and qualitative criteria therefore vary from one sector to another.

Currently, Oddo BHF AM SAS applies the same ESG analysis matrix for the equity asset class and the corporate bond asset class. Since 2012, Oddo BHF AM SAS has also implemented its macro-ESG integrated analysis model for the analysis of government bonds.

- ***General information used to analyse issuers based on ESG criteria: financial or extra-financial data, internal and external analyses based on their management reports, or ratings***

The criteria used by Oddo BHF AM SAS are based on the 3 ESG pillars of sustainable development: environmental, social and governance criteria. Oddo BHF AM SAS relies on the methodology implemented in 2005 and since developed by Oddo BHF, which subdivides these 3 pillars into 10 areas.

These 10 areas cover the 10 criteria of the United Nations Global Compact.

Summary of the Ten Principles of the United Nations Global Compact

The Global Compact calls on companies to adopt, support and apply within their spheres of influence a set of core values in the areas of human rights, labour and environmental standards, and the fight against corruption. In other words, real progress is expected of companies only in those areas that concern them.

The Ten Principles are drawn from the following instruments: Universal Declaration of Human Rights; ILO Declaration on Fundamental Principles and Rights at Work; Rio Declaration on Environment and Development; United Nations Convention against Corruption.

These principles, ordered by category, are as follows:

HUMAN RIGHTS

- Companies are encouraged to promote and respect the protection of international human rights law within their sphere of influence; and
- Ensure that their own companies are not complicit in human rights violations.

LABOUR RIGHTS

- Companies are encouraged to respect freedom of association and to recognise the right to collective bargaining;
- Elimination of all forms of forced or compulsory labour;
- The effective abolition of child labour; and
- The elimination of discrimination in respect of employment and occupation.

ENVIRONMENT

- Companies are encouraged to use a precautionary approach to environmental challenges;
- Undertake initiatives to promote greater environmental responsibility; and
- Promote the development and diffusion of environmentally friendly technologies.

ANTI-CORRUPTION

- Businesses are encouraged to work against corruption in all its forms, including extortion and bribery.

Overall, as part of the microeconomic analysis, each issuer is the subject of an ESG analysis comprising several dozen quantitative and qualitative ESG criteria and indicators. Any changes in criteria are made within the framework of an annual methodological review, in collaboration with the management teams and after consulting the ESG integration steering committee of Oddo BHF AM SAS.

Oddo BHF AM SAS has opted for a gradual internal integration based on the methodology developed by Oddo BHF and the teams of analysts and managers of Oddo BHF AM SAS.

Oddo BHF AM SAS also uses external information supplied by the rating agency Sustainalytics, as well as by external brokers and ESG databases accessible on Bloomberg and Thomson Reuters (Datastream).

- Description of the methodology used for the analysis based on ESG criteria, and its results

Oddo BHF AM SAS has developed a proprietary database that includes an overall ESG rating assigned at the beginning of the calendar year, in the form of a score and a classification into one of four levels, sector by sector:

- Strong opportunity (1): 15% of the sector analysed
- Opportunity (2): 35% of the sector analysed
- Moderate risk (3): 35% of the sector analysed
- High risk (4): 15% of the sector analysed

Under this Best-in-Class approach and on a relative basis, issuers rated Strong Opportunity (1) deliver ESG best practices while those rated High Risk (4) come up short on ESG criteria.

Asset management company incorporated in the form of a *société par actions simplifiée* (simplified joint stock company) with share capital of EUR 7,500,000

Approved by the *Autorité des marchés financiers* under the number GP 99011 - RCS 340 902 857 Paris
12 boulevard de la Madeleine - 75440 Paris Cedex 09 France

Tel: 33 (0)1 44 51 85 00 – www.am.oddo-bhf.com

This ESG rating is combined with an ESG trend (up, stable or down) as a gauge of Best Effort momentum. Oddo BHF AM SAS, while covering each of the three environmental, social and governance (ESG) pillars, has chosen to prioritise governance and human resources/management quality issues and studies.

The management company Oddo BHF AM SAS uses the following providers specialised in ESG analysis:

- The ESG division of the Oddo BHF research group,
- Other specialised teams of brokers,
- Extra-financial rating agency Sustainalytics
- Gross ESG data increasingly provided by Bloomberg and Thomson Reuters/Datastream.

- ***Description of how the results of the analysis based on ESG criteria are integrated into the investment policy***

As part of its PRI commitment, Oddo BHF AM SAS aims to gradually integrate the ESG components into the issuer analysis and evaluation process.

As a supplement to traditional financial analysis, Oddo BHF AM SAS seeks to ensure that relevant ESG criteria are included in the method of analysis and valuation of issuers in the same way as classic financial criteria, the main objective being to build a portfolio offering the best possible risk/return ratio to investors over the long term.

The proprietary ESG database of Oddo BHF AM SAS is available to all management teams.

The ESG database is intended to gradually cover the asset classes European equities, European corporate bonds and government bonds.

Pending their ESG coverage, assets not yet monitored given a neutral status (rated average by default) from an ESG standpoint.

APPENDIX 3: Report on remuneration in application of the UCITS V Directive

1- Quantitative information

	Fixed compensation	Variable remuneration (*)	Number of beneficiaries (**)
Total amount of remuneration paid from January to December 2018	8,988,654	16,005,480	162

(*) Variable remuneration awarded for the year

(**) Beneficiaries shall be understood as all OBAM employees having received remuneration in 2018 (Permanent contract/Temporary contract/Apprenticeship/Internship/Foreign offices)

	Senior managers	Number of beneficiaries	Members of staff with the ability to affect the risk profile of the Fund	Number of beneficiaries
Aggregate amount of remuneration paid for the 2018 financial year (fixed and variable*)	1,268,967	11	17,159,577	33

(*) Variable remuneration in respect of 2018

2- Qualitative information

2.1 Financial and non-financial criteria of remuneration policies and practices

2.1.1 Fixed remuneration

Fixed remuneration is determined on a discretionary basis in line with the market. This allows us to meet our targets for the recruitment of qualified and operational staff.

2.1.2 Variable remuneration

Variable remuneration paid within the Management Company is determined on a largely discretionary basis. As such, once fairly accurate estimates of the results for the year are available (mid-November), a budget for variable remuneration is determined and the various managers – in association with the group HRD – are invited to propose an individual budget breakdown.

This process takes place after the appraisal meetings, in which managers can discuss the quality of each employee's professional performance with them for the year under way (in relation to previously established targets) and set targets for the next year. This appraisal has a highly objective component that addresses whether responsibilities have been met (quantitative targets, sales figures or how the management places in a specific ranking, performance fees generated by the fund managed), as well as a qualitative component (the employee's attitude during the year).

It should be noted that, as part of their variable remuneration, some managers may receive a portion of the performance fees received by OBAM SAS. However, the amount to be allocated to each manager is determined in line with the abovementioned process and there are no individualised contractual packages that regulate the distribution and payment of these performance fees.

2.2 Information to manage the UCI's risk profile and measures adopted to avoid and manage conflicts of interest

The management company has decided not to make a provision for remuneration that is directly linked to the fund's performance. The Remuneration Policy consequently promotes the healthy and effective management of risk and does not encourage risk-taking that would run counter to the risk profiles, the regulations and governing documents of the AIFs.

2.3 Decision-making procedure for determining the remuneration policy

The Management Body of the remuneration policy is responsible for drawing up, approving and monitoring the remuneration policy. It must ensure that the remuneration policy encourages employees to take risks in line with the risks taken by the funds managed by the Management Company, the investors having placed their assets in these funds and the Management Company itself.

OBAM SAS has decided that the Management Body, within the meaning of the variable remuneration policy, will be composed of members of the Company's Management (currently composed of a Chair and a Deputy Managing Director). As such, the Management Body is responsible for ensuring the approval of and compliance with the variable remuneration policy of OBAM SAS. It is also responsible for ensuring the latter is implemented.

For the purposes of conducting any required auditing activities and making any adjustments, the Management Body shall meet at least once a year in order to review the remuneration policy of OBAM SAS and consider any changes that could be justified by regulatory developments or by an internal change at OBAM SAS.

As part of its analysis of the variable remuneration policy, the Management Body will be assisted by the Group's Human Resources department, which supports it in the implementation of the variable remuneration policy, as well as by the various Control and Audit teams of the Company and the Group.

The Management Body will be briefed by employees designated as being "risk takers" within the meaning of the regulations and practices of the Company and, more broadly, of the Group.

The ODDO BHF Group has decided to have only one Remuneration Committee, the supervisory responsibilities of which extend to both entities regulated by the CRD IV Directive and those falling under the AIFMD and UCITS V. Members of the Remuneration Committee are representatives of the Monitoring Body of ODDO BHF SCA, the parent company of OBAM SAS, and are therefore independent of the Management Company.

2.4 Changes to the remuneration policy made during the last financial year

No changes to the remuneration policy were apparent in the annual review of the remuneration policy provided for under points I.3 and I.4 of article 314-85-2 of the AMF General Regulation.
