

KEY INVESTOR INFORMATION

This document provides you with key investor information about this Sub-fund of the SICAV. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this SICAV. You are advised to read it so you can make an informed decision about whether to invest.

ODDO BHF Artificial Intelligence

(hereinafter the “Sub-fund”)

A sub-fund of SICAV ODDO BHF (hereinafter the “SICAV”), managed by ODDO BHF Asset Management SAS

Share class: **CN-EUR [H] - LU1833932863 - EUR - Accumulation**

OBJECTIVES AND INVESTMENT POLICY

The Sub-fund seeks to generate capital growth by investing in listed international equities with exposure to the global megatrend of artificial intelligence by selecting sub-themes related to this trend.

A relevant investment universe is constructed comprising international equities, supported by Big Data semantic analysis tools that identify:

(i) the most important and popular sub-themes. The Management Company selects and regularly reviews the most relevant sub-themes on a discretionary basis, based on its understanding and interpretation of this global megatrend.

(ii) the companies related to these sub-themes. All companies making up the investment universe are given a Big Data score.

As concerns the construction of the portfolio, equities are selected based on their Big Data score and the results of a quantitative analysis carried out by the Management Company. The financial statements of companies comprising the universe are taken into account to avoid investing in undesirable securities. The Management Company carries out a final check on the portfolio, and may exclude certain securities based on technical or fundamental criteria.

The Big Data analysis is carried out with the help of an external data science partner.

The benchmark of the Sub-fund is the MSCI World NR in USD, dividends reinvested. The Sub-fund aims to outperform its benchmark rather than replicate it precisely and may deviate from it considerably in both positive and negative terms.

The Sub-fund invests at least 80% of its net assets in listed international equities.

The Sub-fund may invest up to 25% of its net assets in equities from issuers headquartered in non-OECD member states, and up to 25% in equities denominated in currencies from non-OECD member states.

The rest of its net assets may be invested in any other fungible securities from international issuers (debt securities, etc.), within the limits described in the “Investment restrictions” section of Appendix I to the prospectus.

The Sub-fund may hold up to 20% of its net assets in cash or equivalent assets in order to be able to pay redemption proceeds or meet other liquidity requirements. These assets may take the form of treasury bills and other money market instruments denominated in USD and rated investment grade (at least BBB- by

Standard & Poor’s or a rating deemed equivalent by the Management Company, or using the Management Company’s internal rating), with a residual maturity not exceeding 12 months, as well as term deposits and demand deposits. The Management Company does not use the ratings issued by ratings agencies automatically or in isolation, as it also applies its own internal analysis. If the rating of a security is downgraded, the Management Company will take the interests of the shareholders, the market conditions and its own analysis of the relevant fixed income securities into account when respecting rating limits.

As part of its investment strategy, the Sub-fund is authorised to make use of derivative instruments for investment and hedging purposes. Up to 100% of the Sub-fund’s assets may be exposed to currency risk.

The portfolio’s total exposure to equities and interest rates, including derivative instruments, is limited to 100% of the net assets.

The Fund may invest up to 10% of its net assets (i) in units or shares of UCITS under European directive 2009/65/EC, (ii) in AIFs from EU member states and/or in foreign investment funds mentioned in article R.214-32-42 1° and (iii) in AIFs from EU member states and/or in foreign investment funds that meet the criteria of article R.214-13 of the French Monetary and Financial Code. These funds may be managed by ODDO BHF Asset Management SAS and ODDO BHF Asset Management GmbH, and will be compatible with the Fund’s investment strategy.

Subscription, redemption and conversion requests are centralised by the Central Administration of the Company every net asset value Valuation Day until 16:00 (Luxembourg time, CET/CEST) and executed on the basis of the net asset value of the same day.

The Sub-fund’s reference currency is the US dollar but this share class is expressed in euro. This share class is hedged against EUR/USD currency risk.

The CN-EUR [H] share class accumulates its income.

Recommended investment horizon: 5 years

RISK AND REWARD PROFILE

Historical data, such as is used to calculate the synthetic indicator, may not be a reliable indication of the future risk profile of the Sub-fund. The risk profile is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean a risk-free investment. The capital initially invested is not guaranteed.

Why is the Sub-fund placed in category 5?

Material risks to the Sub-fund that are not taken into account in the indicator:

The Sub-fund presents a high level of risk due to its strategy of investing at least 80% of its assets in global equities.

Credit risk: this is the risk of a sudden downgrading of an issuer’s credit rating or the risk of an issuer’s insolvency.

Counterparty risk: the risk of a counterparty’s collapse, causing it to default on payment. The Fund may be exposed to this risk resulting from the use of forward financial instruments or temporary purchases and sales of securities contracts negotiated over-the-counter with a credit institution if the latter is unable to honour its commitments.

Liquidity risk: the Sub-fund invests in markets that may be affected by a fall in liquidity. Low volumes of market transactions may have an impact on prices at which the manager opens or closes positions.

If one of these risks were to materialise, the Sub-Fund’s net asset value may fall.

CHARGES

Charges and fees paid are used to pay the costs of marketing and distribution; these charges reduce the potential growth of the investment.

One-off charges taken before or after you invest	
Entry charges	5.00%
Exit charges	None

This is the maximum that might be deducted from your capital before it is invested and/or before the proceeds of your investment are paid out. These charges are payable to the distributor. In some cases, investors may pay less.

Charges taken by the Sub-fund over one year	
Ongoing charges	1.05%

Charges taken by the Sub-fund under specific conditions	
Performance fees	20% (inclusive of taxes) of the Fund's outperformance relative to its benchmark index, the MSCI World NR USD (capitalised), provided that the Fund's performance is positive.

As the Sub-fund was created this year, the percentage of ongoing charges shown is an estimate. Actual charges will only be known at the end of the Sub-fund's first financial year.

Actual charges may vary from year to year. The SICAV's annual report for each financial year includes detail on the exact charges made.

These charges do not include: performance fees and intermediary fees except in the case of entry and/or exit charges paid by the Sub-fund when it buys or sells units in another collective investment vehicle.

For more details regarding fees, please refer to the "Fees and Expenses" section of the prospectus, available at am.oddo-bhf.com or from the registered office of the SICAV.

PAST PERFORMANCE

Performance varies over time and is not an indication of future results.

The annualised performances shown in this chart are calculated after deducting all charges taken by the Sub-fund.

This Sub-fund was created on 19 December 2018.

The reference currency of the Sub-fund is the US dollar (USD).

Failing sufficient regulatory historical data, past performance cannot be published.
