

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Oddo Retraite Equilibre

(hereinafter the "Fund")

This Fund is managed by ODDO BHF Asset Management SAS

ISIN: Oddo Retraite Equilibre 60- FR0011079516 - EUR - Accumulation Units

OBJECTIVES AND INVESTMENT POLICY

Over an investment horizon of more than five years and via a balanced allocation between equities and fixed income products, the Fund's investment objective is to outperform its composite benchmark index (60% Euro MTS Broad Investment Grade 7/10 years coupons reinvested and 40% DJ Eurostoxx 50 net dividends reinvested) after the actual management fees for each unit class have been deducted.

The Fund may have exposure of:

- between 57% and a maximum of 63% of the Fund's net assets to European Union fixed income products via investment funds or debt securities. The fixed income products will consist of Euro Zone government bonds without any rating constraints and corporate or public bonds issued in euro. Corporate debt may represent the total fixed income allocation. Corporate bonds and money market instruments will be rated at least A by Standard & Poor's or equivalent, or using the Management Company's internal rating. If an issuer is downgraded, the Management Company will take the interests of unitholders, market conditions and its own analysis of these fixed income products into account when respecting rating limits.
- between 37% and a maximum of 43% of the Fund's net assets to large-cap Euro Zone equities via investment funds or securities.

The Fund may invest up to 100% of its assets in units or shares of UCITS falling within the scope of European Directive 2009/65/EC, and up to 30% of its net assets in French AIFs or AIFs from other EU Member States, and in foreign investment funds referred to in R.214-25 that meet the criteria of article R.214-13 of the French Monetary and

Financial Code. These funds may be managed by ODDO BHF Asset Management SAS and/or ODDO BHF Asset Management GmbH. The strategies of these funds will be compatible with that of the Fund.

The Fund may use forward financial instruments traded on French or foreign regulated or over-the-counter markets for the purpose of hedging the portfolio and/or exposing it to interest rate, equity, credit and currency risks. The use of forward financial instruments (derivatives) may lead to the Fund being overexposed within the limit of 150% of net assets.

The Fund manager implements an active, discretionary management strategy with the aim of making gains on the securities held in the portfolio. The investment process is built on (i) an analysis of the European macroeconomic environment, market developments and their asset allocation forecast and (ii) the selection of investment funds based on a quantitative and qualitative analysis.

Subscription and redemption requests are centralised by the depositary every Paris stock exchange trading day until 17:45 (Paris time, CET/CEST) and executed on the basis of the net asset value of the following trading day.

Oddo Retraite Equilibre 60 units reinvest their income.

Recommended investment horizon: 5 years

This Fund may not be appropriate for investors who plan to withdraw their money within this period.

RISK AND REWARD PROFILE

Historical data, such as is used to calculate the synthetic indicator, may not be a reliable indication of the future risk profile of the Fund. The risk profile is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean a risk-free investment. The capital initially invested is not guaranteed.

Why is the Fund placed in category 4?

- 1) investment mainly in investment grade bonds and money market instruments (rated at least A by S&P or equivalent for corporate bonds),
- 2) investment on an ancillary basis in large-cap Euro Zone equities, which increases the Fund's risk.

Material risks to the Fund that are not taken into account in the indicator:

Credit risk: this is the risk of a downgrading of an issuer's credit rating or the risk of an issuer's insolvency.

Counterparty risk: The risk of a counterparty's collapse, causing it to default on payment. The Fund may be exposed to this risk resulting from the use of forward financial instruments or temporary purchases and sales of securities contracts negotiated over-the-counter with a credit institution if the latter is unable to honour its commitments.

If one of these risks were to materialise, the Fund's net asset value may fall.

CHARGES

Charges and fees paid are used to pay the costs of marketing and distributing units; these charges reduce the potential growth of the investment.

One-off charges taken before or after you invest

Entry charges	4.00%
Exit charges	None

This is the maximum that might be deducted from your capital before it is invested and/or before the proceeds of your investment are paid out. These charges are payable to the distributor. In some cases, investors may pay less.

Charges taken by the Fund over one year

Ongoing charges	2.24%
-----------------	-------

Charges taken by the Fund under specific conditions

Performance fees	None
------------------	------

Ongoing charges are based on the expenses for the last financial year ended December 2018.

Actual charges may vary from year to year. The Fund's annual report for each financial year includes detail on the exact charges incurred.

These charges do not include: performance fees and intermediary fees except in the case of entry and/or exit charges paid by the Fund when it buys or sells units in another collective investment vehicle.

For more details regarding fees, please refer to the "Fees and Expenses" section of the prospectus, available at am.oddo-bhf.com.

PAST PERFORMANCE

■ Oddo Retraite Equilibre 60 ■ 60% d'Euro MTS Broad Investment Grade 7/10 ans coupons réinvestis et 40% DJ d'EUR

Performance varies over time and is not an indication of future results.
