

# ODDO BHF EURO CREDIT SHORT DURATION

January 2022

## OBJECTIVE OF THE FUND

- The investment objective of the Sub-fund is to provide a high level income and capital growth
- Focus is on Euro corporate bonds with a rating of at least B3 or B- and a residual maturity of 4 years
- A minimum of 20 % of the assets will be invested in sub-investment grade bonds (High Yield)

## REASONS TO INVEST ACCORDING TO OUR ANALYSIS

	<p><b>1 Liquidity through regular maturities</b></p> <p>A significant proportion of the portfolio maturing short-term enables portfolio managers to smoothly adjust the portfolio to prevailing market conditions</p>
	<p><b>2 Higher visibility provided by shorter investment horizon</b></p> <p>Shorter maturities provide higher visibility, e.g. the predictability of cash flows is usually higher than for longer maturity bonds, according to our analysis</p>
	<p><b>3 Reduced sensitivity to risk factors</b></p> <p>Shorter maturities exhibit lower interest rate and credit spread sensitivity compared to an all maturities universe</p>
	<p><b>4 Potentially attractive risk-adjusted returns</b></p> <p>Historically credit investments in shorter maturities offered potentially attractive risk adjusted returns compared to an all maturities universe</p>
	<p><b>5 Experienced team with proven track record</b></p> <p>The fund is managed by a dedicated team with a proven investment process (no default since 2000, as of 12/2021)</p>
	<p><b>6 Integrated ESG approach</b></p> <p>Consideration of ESG (Environment, Social and Governance) criteria in the investment process</p>

## MAIN RISKS

**The fund is mainly exposed to: risk of capital loss, credit risk, risk associated with HY bonds, emerging market risk.**

\* The EU Sustainable Finance Disclosure Regulation (SFDR) is a set of EU rules which aim to make the sustainability profile of funds transparent, more comparable and better understood by end investors. Article 6: The management team does not consider sustainability risks or adverse effects of investment decisions on sustainability factors in the investment decision making process. Article 8: The management team addresses sustainability risks by integrating ESG criteria (Environment and/or Social and/or Governance) into its investment decision making process. Article 9: The management team follows a strict sustainable investment objective that significantly contributes to the challenges of the ecological transition, and addresses Sustainability Risks through ratings provided by the Management Company's external ESG data provider. / \*\* Synthetic risk and return indicator: with lower risk, potentially lower return and higher risk, potentially higher return. The risk profile is not constant and may change over time. Source: ODDO BHF AM GmbH

# The case for Euro Credit Short Duration

## According to our analysis:

### Liquidity through regular maturities<sup>1</sup>

- Maturity profile: 39.6% of the portfolio maturing until End of 2023

### Short Duration Credit<sup>2</sup> with low interest rate sensitivity and potentially attractive yield relative to duration<sup>4</sup>

**Past performance is not a reliable indication of future return and is not constant over time. The Fund presents a risk of capital loss.**

**This information is provided for illustrative purposes only and should not be construed as investment advice.** <sup>1</sup> Based on the Portfolio of ODDO BHF Euro Credit Short Duration. <sup>2</sup> 70% BofAML Euro High Yield 2-4, Index, 30% 1-3 Year BofAML Euro Corporate Index. <sup>3</sup> High Yield ex-Financials: BofAML Euro High Yield Fixed Floating Rate ex Financials Constrained Index. <sup>4</sup> The Yield to Maturity (YtM) is the estimation at a certain date of the expected rate of return of a bond portfolio if the securities are held to maturity. It does by no means constitute a promised return. It can, therefore, be affected by interest rate risks, default risks, reinvestment risks and the fact that bonds may not be held until maturity. ## Glossary

<b>Maturity</b>	Maturity is the agreed-upon date in which the investment ends.
<b>Modified duration to maturity</b>	Discounted average lifetime of all flows (interest and principal), for an investor who keeps a bond until redemption, assuming that the issuer will not default.
<b>Yield to maturity</b>	Real rate of return of a bond for an investor who keeps it until redemption, assuming the reinvestment of interest at the same yield, assuming the issuer does not default.
<b>Credit spread</b>	The yield of a corporate bond is equal to the yield of a government bond to which is added a premium to compensate for additional credit risk. This premium is called a spread.

ODDO BHF AM is the asset management division of the ODDO BHF Group. It is the common brand of four legally separate asset management companies: ODDO BHF AM SAS (France), ODDO BHF PRIVATE EQUITY (France), ODDO BHF AM GmbH (Germany) and ODDO BHF AM Lux (Luxembourg).
