This document provides key information for the investor with regard to this Fund. It is not advertising material. This information is prescribed by law for the purpose of explaining to you the nature of this Fund and the risks associated with an investment in it. We advise you to read this document so that you can make a well-informed investment decision.

Objectives and investment policy

ODDO BHF Polaris Moderate CI-EUR invests in a flexible mix of bonds, global equities, bank deposits and certificates. The target equity quota is between 0 and 40 per cent. On the bonds side, ODDO BHF Polaris Moderate CI-EUR invests primarily in government bonds, corporate bonds and debentures, mainly denominated in euro.

Individual investments and the weighting of asset classes is based on the assessments of our capital market experts. The Fund may also be managed through financial futures transactions.

The aim of investing in ODDO BHF Polaris Moderate CI-EUR is to avoid major setbacks in equity prices and generate superior returns to an investment in bonds through flexible asset allocation.

ODDO BHF Polaris Moderate CI-EUR is a special, launched share class for institutional clients. The minimum investment amount is 15 million EUR.

The Fund may not be suitable for investors who wish to withdraw their capital in a period of three years or less.

The currency of the Fund is Euro.

Income generated by ODDO BHF Polaris Moderate CI-EUR will not be distributed, but accumulated.

You may return your units in ODDO BHF Polaris Moderate CI-EUR on each exchange trading day.

Risk and reward profile

The Fund is classified into its risk class on the basis of historical data of the Fund or a comparable investment in the last 5 years; the classification therefore does not represent any forecast for the future. The classification is not a guarantee; it can change over time. A classification into category 1 does not mean that the Fund is not subject to any risk of fluctuation in its value.

The Fund is classified into risk class 3 because the historical data show value fluctuations of between 2% and 5% on an annual average.

Generally, higher value fluctuations will entail greater risks of loss, but also greater opportunities for value increases.

The following risks do not have any direct influence on the classification but may nevertheless be of significance for the Fund:

- **Credit risk:** The fund mainly invests in bonds. There is a risk that the issuers of bonds may not be able to repay the money they have borrowed or make interest payments. The fund may be exposed to the risk of financial loss if it invests into an instrument issued by an entity that subsequently defaults on its borrowings. Losses may also be realised if an entity that the fund is exposed to ceases to make interest payments over a period of time or indefinitely.

- **Operational risks including custody risks:** Errors and misunderstandings in management and custody may adversely affect the performance of the Fund.

- **Risks from the use of derivative instruments:** Derivatives are financial futures transactions that are based on underlyings such as equities, bonds, interest rates, indices and commodities and on their performance. The Fund may use derivative instruments to hedge or increase the value of the Fund assets. Depending on the performance of the underlying, losses may be incurred.

- **Target fund risks:** The Fund invests in target funds in order to cover certain markets, regions or themes. The performance of individual target funds may lag behind the performance of the respective market.

- **Currency risks:** The Fund also invests its monies outside the Euro area. The value of the currencies of these investments may fall against the Euro.

For a detailed description of all risks, please refer to the Sales Prospectus of the Fund under “Risk information”.

Costs

One-off costs before and after the investment:	
Initial sales charge	5 %, currently 0 %
Redemption fee	0 %
In each case these are the highest amounts that may be charged to you.	
Costs incurring to the Fund during the financial year:	
Ongoing charges	0.90 %
Costs to be borne by the Fund in certain circumstances:	
Performance-based fee p. a.	
Up to 10 % of the amount by which performance exceeds the benchmark index (EONIA OIS plus 200 basis points) at the end of a calculation period.	

The costs borne by you finance the management and custody of the Fund as well as distribution and marketing; these costs reduce the growth potential of your investment.

The initial sales charges and redemption fees represent the maximum amount in each case. In the individual case, the amounts to be paid by you may be lower. With regard to the amounts actually applying to you, please ask your advisor or distribution agent.

The ongoing charges figure shown here is an estimate of the charges. The estimate was necessary as the previous financial year was a short financial year. The UCITS' annual report for each financial year will include detail on the exact charges made. The "Ongoing charges" may fluctuate from one financial year to the next.

For detailed information on the costs, please refer to the Sales Prospectus of the Fund.
