

KEY INVESTOR INFORMATION

This document provides you with key investor information about this Sub-fund of the SICAV. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this SICAV. You are advised to read it so you can make an informed decision about whether to invest.

ODDO BHF Algo Trend Europe

(hereinafter the “Sub-fund”)

A sub-fund of SICAV ODDO BHF (hereinafter the “SICAV”), managed by ODDO BHF Asset Management SAS

Share class: CI-EUR - LU1361561365 - EUR - Accumulation

OBJECTIVES AND INVESTMENT POLICY

The Sub-fund seeks to generate sustainable returns from investment revenue and growth while also maintaining low financial risk levels.

The Sub-fund aims to outperform its benchmark rather than replicate it precisely and may deviate from it considerably in both positive and negative terms. The Sub-fund will mainly invest in the stocks composing the STOXX® Europe Sustainability ex AGTAFI index, alongside interest-earning securities (fixed and/or variable rate securities). The Sub-fund’s stock selection method relies upon a trend-tracking model based on the benchmark index. This model calculates trends and buy/sell signals with reference to a wide array of historical data. The model makes investment decisions without any manual intervention. Price fluctuations and falls on the equity market only trigger reallocation within the Sub-fund when the positive trend observed for the stocks in question disappears or other stocks are deemed to be more attractive. Another element of the strategy is that the Sub-fund is always almost exclusively invested in equities.

Sub-fund units are eligible for the French Equity Savings Plan (*Plan d’Epargne en Actions* or PEA) (a French equity investment). In light of the above and in accordance with Article 91 quater L of Annex II of the French tax code, the Sub-fund must invest at least 75% of its net asset value in equities from issuers with a registered office in a member state of the European Union or another state party to the agreement on the European Economic Area (EEA) (as described in Article L.221-31, paragraph I, 1°, a, b and c of the French monetary and financial code.

The Sub-fund may invest up to 25% of its net asset value in equities from issuers with a registered office in a country that is neither a member state of the European Union nor party to the agreement on the European Economic Area (EEA).

Depending on market conditions, the Sub-fund may invest up to 25% of its net asset value in fixed income securities denominated in euro and rated investment grade (at least BBB- by Standard & Poor’s or a rating deemed equivalent by the Management Company, or using the

Management Company’s internal rating) issued by credit institutions with a registered office in a member state of the European Union or another state party to the agreement on the European Economic Area. The Sub-fund may hold cash or equivalent assets in order to be able to pay redemption proceeds or meet other liquidity requirements. These assets may take the form of treasury bills and other money market instruments rated investment grade (at least BBB- by Standard & Poor’s or a rating deemed equivalent by the Management Company, or using the Management Company’s internal rating), with a residual maturity not exceeding 12 months, as well as term deposits and demand deposits. The Sub-fund may invest up to 10% of its assets in units or shares of European UCITS, in AIFs from France or other EU member states, as well as in foreign investment funds. These funds may be managed by ODDO BHF Asset Management SAS and/or ODDO BHF Asset Management GmbH. As part of its investment strategy, the Sub-fund is authorised to make use of derivative instruments for investment and hedging purposes. Derivative instruments may also be used to ensure effective portfolio management, as well as to generate additional income, and therefore also for speculative ends. The Sub-fund may in particular use futures contracts, options, swaps and OTC derivative instruments at the sole discretion of the Management Company and Sub-manager. The portfolio’s total exposure to equities, including derivative instruments, is limited to 100% of the net assets. The Sub-fund’s benchmark index is the STOXX® Europe 600.

The Fund’s reference currency is the euro.
All income generated by the fund will be reinvested.
Recommended investment horizon: 5 years

RISK AND REWARD PROFILE

Historical data, such as is used to calculate the synthetic indicator, may not be a reliable indication of the future risk profile of the Sub-fund. The risk profile is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean a risk-free investment. The capital initially invested is not guaranteed.

Why is the Sub-fund placed in category 5?

The Sub-fund has a high risk level in that it is almost exclusively invested in the equities of the STOXX® Europe Sustainability index at all times.

Material risks to the Sub-fund that are not taken into account in the indicator:

Liquidity risk: the Sub-fund invests in markets that may be affected by a fall in liquidity. Low volumes of market transactions may have an impact on prices at which the manager opens or closes positions.

Impact of financial techniques: taking into account the use of derivatives in particular, the Sub-fund’s maximum exposure to individual asset classes may exceed its net assets. In the event of unfavourable changes in the strategies used, the net asset value may fall more significantly than the markets to which the Sub-fund is exposed.

Counterparty risk: risk of a counterparty’s default, causing it to default on payment. The Sub-fund may be exposed to this risk resulting from the use of forward financial instruments or temporary purchases and sales of securities contracts negotiated over-the-counter with a credit institution if the latter is unable to honour its commitments.

If one of these risks were to materialise, the Sub-Fund’s net asset value may fall.

CHARGES

Charges and fees paid are used to pay the costs of marketing and distribution; these charges reduce the potential growth of the investment.

One-off charges taken before or after you invest	
Entry charges	2.00%
Exit charges	None

This is the maximum that might be deducted from your capital before it is invested and/or before the proceeds of your investment are paid out. These charges are payable to the distributor. In some cases, investors may pay less.

Charges taken by the Sub-fund over one year	
Ongoing charges	0.83%

Charges taken by the Sub-fund under specific conditions	
Performance fees	10% (inclusive of tax) of the Sub-fund's outperformance relative to the benchmark, provided that the Sub-fund's performance is positive. Amount of the performance fee charged during the last financial year: 0.19%

Ongoing charges are based on the expenses for the last financial year ended October 2019.

Actual charges may vary from year to year. The SICAV's annual report for each financial year includes detail on the exact charges made.

These charges do not include: performance fees and intermediary fees except in the case of entry and/or exit charges paid by the Sub-fund when it buys or sells units in another collective investment vehicle.

For more details regarding fees, please refer to the "Fees and Expenses" section of the prospectus, available at am.oddo-bhf.com or from the registered office of the SICAV.

PAST PERFORMANCE

Performance varies over time and is not an indication of future results.

The annualised performances shown in this chart are calculated after deducting all charges taken by the Sub-fund.

This Sub-fund was created on 1 March 2016.

The reference currency of the Sub-fund is the euro (EUR).

PRACTICAL INFORMATION

Depositary: CACEIS Bank, Luxembourg Branch
