As part of the harmonisation of its fund range, ODDO BHF Asset Management will distribute its offering of multi-asset funds under the new, joint brand of “ODDO BHF Polaris”. This name change will make it easier to distribute the funds in other European countries, thus enhancing their reach and future viability. The “Polaris” brand brings to mind the North Star, which from time immemorial has guided sailors and other travellers.

The new prospectus, including the management regulations, will be available free of charge upon completion from the Management Company, Custodian and the respective paying, information and distribution agents in Luxembourg and elsewhere. It may also be downloaded at am.oddo-bhf.com.
