WHY INVEST IN *European high yield bonds* ACCORDING TO OUR ANALYSIS?

- High Yield bonds are corporate bonds rated below BBB- or Baa3 by established credit rating agencies. They bear higher credit risk than investment grade corporate bonds, but typically offer a significant risk premium.
- The Euro High Yield market has developed strongly over the last decades and is no longer a niche segment. It consists of various sectors ranging from industrial goods and services over packaging to healthcare and is well diversified in terms of issuers.
- Compared to its US peer the Euro High Yield market has a more defensive risk profile in terms of rating structure: more BB- rated companies, but fewer Bs and CCCs.

POTENTIAL BENEFITS OF EURO HIGH YIELD
