

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

ODDO BHF Avenir Euro

(hereinafter the "Fund")

This Fund is managed by ODDO BHF Asset Management SAS

ISIN: CN-EUR units - FR0013274354 - EUR - Accumulation

OBJECTIVES AND INVESTMENT POLICY

This Fund is classified as follows: Euro Zone equities

The Fund's investment objective is to seek long-term capital growth by outperforming its benchmark, the MSCI EMU SMID CAP (Net Return), over a minimum investment period of five years, while also taking ESG criteria into consideration. The Fund is a stock-picking fund and is managed on a discretionary basis.

At least 75% of the Fund's assets is permanently invested in equities of issuers headquartered in a Euro Zone country. Investments in equities of issuers located outside the Euro Zone are limited to 10%.

The Fund is composed of conviction investments in small and mid-cap companies of less than EUR 10 billion (at the time they are first added to the portfolio). The management team focuses on companies that enjoy a real competitive edge, operating on markets with strong entry barriers. The companies selected generate above-average profitability, which should enable them to finance their own long-term growth. These characteristics are identified during the analysis conducted by the fund managers, who choose them on a discretionary basis. However, there are strict sector exclusions on tobacco, alcohol, gambling, activities relating to the extraction and production of energy from coal, and nuclear. The Fund cannot therefore invest in these sectors.

The investment process comprises four main steps: (i) filtering of the universe, (ii) analysis of fundamentals, company visits, ESG (environmental, social, governance) analysis, (iii) valuation, and (iv) portfolio construction. In addition to the fundamental analysis, an ESG (environmental, social, governance) assessment is carried out, based on a combined best-in-universe and best-effort approach promoting the application and improvement of best practices. An internal scoring system is used for securities held within the portfolio, based on managers' proprietary analyses and external databases. The Management Company uses an internal rating scale divided into five ranks: High ESG Opportunity (5), ESG Opportunity (4), ESG Neutral (3), Moderate ESG Risk (2) and High ESG Risk (1). Furthermore, the Fund undertakes not to invest more than 10% of its assets in securities rated High ESG Risk (1). This non-financial rating system limits portfolio exposure to issuers with lower ESG ratings, and ensures a given overall ESG rating. The average portfolio rating will therefore always be greater than or equal to 3 out of 5 on our internal ESG rating scale. This effectively eliminates at least 20% of the investment universe for the Fund.

The Fund may invest up to 25% in bonds and debt securities denominated in euro in order to generate income from cash. The instruments used shall primarily be transferable debt securities of short-term maturities, limited to issuers with a long-term AAA rating (Standard & Poor's or equivalent or according to the Management Company's internal rating). The Management Company does not use the ratings issued by ratings agencies automatically or in isolation, as it also applies its own internal analysis. In the event of a downgrade, the Management Company will take the interests of unitholders, market conditions and its own analysis of these fixed income products into account when respecting rating limits.

The Fund may, without seeking overexposure, invest up to 100% of its net assets in all financial forwards or futures or options traded on regulated, organised or over-the-counter markets in France and other countries (hedging of and exposure to equity risk and hedging of currency risk) with a view to achieving the investment objective of the Fund through futures, options, currency swaps and currency forwards. The Fund will not use total return swaps.

The Fund may therefore hold up to 10% of its net assets in securities with embedded derivatives (convertible bonds, warrants).

The Fund may invest up to 10% of its net assets (i) in units or shares of UCITS under European Directive 2009/65/EC, (ii) in EU AIFs and/or in foreign investment funds mentioned in R.214-25 that meet the criteria of article R.214-13 of the French Monetary and Financial Code. These funds may be managed by ODDO BHF Asset Management SAS and ODDO BHF Asset Management GmbH, and will be compatible with the Fund's investment strategy.

The portfolio's maximum exposure to the various asset classes (equities, debt securities, UCIs and derivatives) is limited to 100% of net assets.

Subscription and redemption requests are centralised by the Depositary every Paris stock exchange trading day until 11:15 (Paris time, CET/CEST) and executed on the basis of the net asset value of the same day.

CN-EUR units accumulate their income.

Recommended investment horizon: 5 years

This Fund may not be appropriate for investors who plan to withdraw their money within this period.

RISK AND REWARD PROFILE

Historical data, such as is used to calculate the synthetic indicator, may not be a reliable indication of the future risk profile of the Fund. The risk profile is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean a risk-free investment. The capital initially invested is not guaranteed.

Why is the Fund placed in category 5?

The Fund presents a high level of risk due to its strategy of investing at least 75% of its assets in Euro Zone equities.

Material risks to the Fund that are not taken into account in the indicator:

Liquidity risk: the Fund invests in markets which may be affected by declines in liquidity. Low volumes of market transactions may have an impact on prices at which the manager opens or closes positions.

Counterparty risk: the risk of a counterparty's collapse, causing it to default on payment. The Fund may be exposed to this risk resulting from the use of forward financial instruments or temporary purchases and sales of securities contracts negotiated over the counter with a credit institution if the latter is unable to honour its commitments.

If one of these risks were to materialise, the Fund's net asset value may fall.

CHARGES

Charges and fees paid are used to pay the costs of marketing and distributing units; these charges reduce the potential growth of the investment.

One-off charges taken before or after you invest	
Entry charges	4.00%
Exit charges	None

This is the maximum that might be deducted from your capital before it is invested and/or before the proceeds of your investment are paid out. These charges are payable to the distributor. In some cases, investors may pay less.

Charges taken by the Fund over one year	
Ongoing charges	1.31%

Charges taken by the Fund under specific conditions	
Performance fees	20% (inclusive of tax) of the Fund's outperformance relative to the benchmark, the MSCI EMU SMID CAP (net return), provided that the Fund's performance is positive. Amount of the performance fee charged during the last financial year: 0.00%

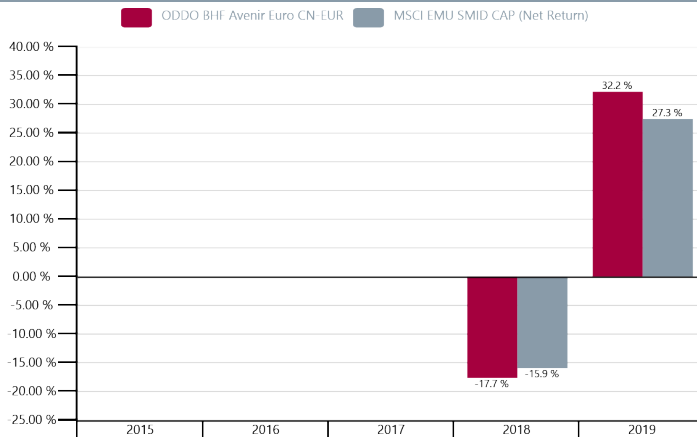

Ongoing charges are based on the expenses for the last financial year ended June 2019.

Actual charges may vary from year to year. The Fund's annual report for each financial year includes detail on the exact charges incurred.

These charges do not include: performance fees and intermediary fees except in the case of entry and/or exit charges paid by the Fund when it buys or sells units in another collective investment vehicle.

For more details regarding fees, please refer to the "Fees and Expenses" section of the prospectus, available at am.oddo-bhf.com.

PAST PERFORMANCE

Performance varies over time and is not an indication of future results.

The annualised performances shown in this chart are calculated after deducting all charges taken by the Fund.

This Fund was created on 19 September 1985. The reference currency is the euro (EUR).

Until 1 October 2013, the benchmark was the HSBC Euroland Smaller Companies (TR). Since 1 October 2013, the benchmark has been the MSCI EMU SMID CAP (Net Return).
