WHAT IS THIS PRODUCT?

TYPE

ODDO BHF Green Planet is a UCITS under Directive 2009/65/EC, taking the form of a SICAV.
The Board of Directors may propose the liquidation of the SICAV at an Extraordinary General Meeting if the assets fall below the regulatory minimum. It may also do so on a discretionary basis, after the *Autorité des marchés financiers* has approved the liquidation and shareholders have been informed.

TERM

ODDO BHF Green Planet was created on 26 October 2022 for an indefinite term.

OBJECTIVES

The Sub-fund aims to invest in listed shares of international companies benefiting from the structural trend towards
ecological transition–the "green planet" megatrend–i.e. whose business model significantly helps to smooth the difficulties arising from climate change, focusing in particular on the following four sub-themes: clean energy, energy efficiency, preservation of natural resources and sustainable transport. Investment in the green planet megatrend is considered to be
an environmental sustainable development goal. A non-financial analysis is also carried out to prioritise companies whose ESG (environmental, social and governance) characteristics do the most to limit operational execution risks and encourage sustainable practices. The international equity portfolio will be built in four stages:
I) The initial investment universe is based on the MSCI ACWI NR index and international companies with a capitalisation above USD 500 million to which ESG criteria are applied, as specified in Appendix XIV of the prospectus.
II) Companies are then selected according to their big data score. The big data analysis is completed in two parts, with the help of an external data science partner:

1- Identification of sub-themes linked to the "Green Planet" megatrend, using big data analysis; and
2- Identification of companies linked to these sub-themes with the help of big data analysis.

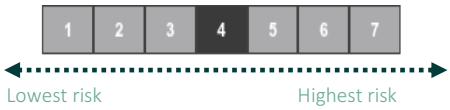
III) The Management Company then applies quantitative filters that take into account different criteria such as growth, valuation, quality, momentum and volatility. The financial results are considered so as to avoid investing in shares with undesirable features.
IV) When the final portfolio is constructed, the quantitative filters described above will be used to categorise companies.
More than 90% of the Sub-fund's net assets are subject to non-financial analysis, with the help of an external ESG research provider.
The Sub-fund is actively managed against a benchmark, the MSCI ACWI NR index, which it aims to outperform and which is also used to calculate any performance fee.
The Sub-fund aims to outperform its Benchmark rather than replicate it exactly, and may deviate from it considerably on both the upside and downside. Within the scope of the investment process, the Management Company has complete discretion over the composition of the Sub-fund's portfolio.
The Sub-fund invests at least 90% of its net assets in listed international equities. The Sub-fund may invest up to 50% of its net assets in equities from issuers established in non-OECD countries, and up to 50% of its net assets in equities denominated in the currencies of non-OECD countries. The Sub-fund may have a regional bias towards certain emerging countries, including but not limited to China, via Stock Connect or Bond Connect. The Sub-fund may hold up to 10% of its assets in cash equivalents to honour redemptions or meet other liquidity requirements. These assets may take the form of treasury bills and other money market instruments denominated in USD and rated investment grade (at least BBB- by S&P or a rating deemed equivalent by the Management Company, or using the Management Company's internal rating), with a residual maturity not exceeding 12 months, as well as term deposits and demand deposits. The Management Company does not use the ratings issued by ratings agencies exclusively or automatically, as it also applies its own internal analysis. The Sub-fund is allowed to use derivatives for investment and hedging purposes. Currency risk may be up to 100%. The Sub-fund's maximum exposure to the instruments (equities, debt securities, funds and derivatives) may not exceed 100% of net assets, it being understood that the maximum exposure is the sum of the net exposures to each of the markets (equity, fixed income, money) to which the Sub-fund is exposed (the sum of long and hedging positions).
Subscription, redemption and conversion requests are centralised by the Central Administration of the Company every net asset value Valuation Day until 12:00 (Luxembourg time, CET/CEST) and executed on the basis of the net asset value of the same day.
CI-EUR shares accumulate their income, as decided by the board of directors on a yearly basis.

INTENDED RETAIL INVESTOR

The Sub-fund is intended for investors having a long-term (at least five-year) investment horizon and wanting to invest in an actively managed portfolio composed mainly of international tradeable shares linked to the Green Planet theme. US Persons may not invest in this product.
More detailed information on the Sub-fund, such as the prospectus (in French, English and German) and the annual and semi-annual reports translated into the languages of the Sub-fund's distribution countries, is available at am.oddo-bhf.com or may be obtained free of charge at any time from the registered office of the SICAV, located at 5 allée Scheffer, L-2520 Luxembourg, Grand Duchy of Luxembourg or from the centralising agent in the distribution country. Detailed information on the remuneration policy is available on the management company's website (am.oddo-bhf.com). Investors may also request a hard copy of this information from the management company. The agreement entered into pursuant to Article 79 of the Law of 2010, as described in more detail in Appendix 1, Section I of the Prospectus, may be consulted by Sub-fund investors on request.
The Sub-fund's custodian is CACEIS Bank, Luxembourg Branch

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

RISK INDICATOR



The risk indicator assumes you keep the product until the end of the recommended holding period, i.e. five years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.
We have classified this product as 4 out of 7, which is a medium risk class.
This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you. Currency risk: you will be paid in a different currency; your actual gain will therefore depend on the exchange rate between the two currencies. This risk is not taken into account in the above indicator:
Other materially relevant risks not taken into account in the indicator:
Other risks not taken into account in the risk indicator may be materially relevant. They include:
Liquidity risk and counterparty risk
As this product does not offer protection from market hazards, you could lose some or all of your investment.

PERFORMANCE SCENARIOS

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.
What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.
The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years with a one-year horizon and over the recommended investment period.
Markets could develop very differently in the future.
The stress scenario shows what you might get back in extreme market circumstances.

Recommended investment period: 5 years
Investment: €10,000

Scenarios		If you exit after 1 year	If you exit after 5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	€5,020	€4,370
	Average return each year	-49.8%	-15.3%
Unfavourable	What you might get back after costs	€8,180	€11,260
	Average return each year	-18.2%	2.4%
Medium	What you might get back after costs	€10,440	€13,380
	Average return each year	4.4%	6.0%
Favourable	What you might get back after costs	€14,030	€17,290
	Average return each year	40.3%	11.6%

The unfavourable scenario occurred for an investment between: 11/2024 and 06/2026.
The medium scenario occurred for an investment between: 09/2017 and 09/2022.
The favourable scenario occurred for an investment between: 10/2016 and 10/2021.

WHAT HAPPENS IF ODDO BHF ASSET MANAGEMENT SAS IS UNABLE TO PAY OUT?

The product is a co-ownership of financial instruments and deposits separate from the portfolio's Management Company. In the event of the company's insolvency, the product's assets, which are held by the custodian, would be unaffected. In the event of the custodian's insolvency, the risk of financial loss on the product would be mitigated by the legal segregation of the custodian's assets from the product's assets.

WHAT ARE THE COSTS?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts taken from your investment to cover the different types of cost. These amounts depend on how much you invest, how long you hold the product, and the return on the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.
We have assumed:

- In the first year, you would get back the amount that you invested (0% annual return). For the other holding periods, we have assumed the product performs as shown in the moderate scenario.
- €10,000 is invested

Investment: €10,000

Scenarios	If you exit after 1 year	If you exit after 5 years
Total costs	€313	€990
Annual cost impact*	3.2%	1.7%

* This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the end of the recommended holding period your average return per year is projected to be 7.7% before costs and 6.0% after costs.
We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

COMPOSITION OF COSTS

The table below indicates the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period, and the meaning of the different cost categories.

One-off costs upon entry or exit		If you exit after: 1 year
Entry costs	Entry costs represent the maximum amount that may be paid at the time of subscription. 2.00% is the most you will pay; it may be that you pay less. The person selling you the product will inform you of the actual costs.	Up to €200
Exit costs	Exit costs are not charged.	Up to €0
Ongoing costs [taken each year]		
Management fees and other administrative or operating costs	These represent the unavoidable costs of running the product and any payments, including remuneration, to parties connected to the product and providing services. 0.90% of the value of your investment per year. This is an estimate based on actual costs over the last year.	€88
Transaction costs	0.26% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	€25
Incidental costs taken under specific conditions		
Performance-related fees	Impact of performance-related fees. 20% (inclusive of tax) of the Fund's outperformance relative to the benchmark, MSCI ACWI NR, once any past underperformance over the last five financial years has been fully offset and provided that the Fund's absolute return is positive.	€0

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Minimum recommended holding period: over 5 years

This recommended holding period is a minimum that takes into account the features of the selected product. It may be longer, depending on your financial position and investment choices.

You can redeem some or all of your investment at any time. Exiting before the end of the recommended holding period may affect the performance that can be expected from your investment. You can find details of any charges and penalties applied when divesting under: "What are the costs?"

Subscription, redemption and conversion requests are centralised by the Central Administration of the Company every net asset value Valuation Day until 12:00 (Luxembourg time, CET/CEST) and executed on the basis of the net asset value of the same day.
